OVER 200 MEN ENTOMBED WHEN MINE IS WRECKED; MINE BURNING FIERCELY

There Were Nearly Three Hundred Men at Work When Explosion Occurred in the West Virginia Collieries.

FOUR TAKEN OUT DEAD AND 59 RESCUED ALIVE

Many of Those Saved Alive Are Badly Burned and Will Die—Not Believed There Is Any Hope for Buried Men.

Eccles, W. Va., April 28.—Four miners are known to be dead, fifty-nine were rescued, many of them severely burned, and 203 others are entombed in two burning mines, and are believed to have but a small chance for their lives, as the result of an explosion of gas in mines Nos. 5 and 6 of the New River Collieries company, here late today. The dead and rescued men were taken from mine No. 6, and it is said all but thirteen who entered this shaft early today have been accounted for.

One hundred and ninety of the entombed men are in shaft No. 5, not a man having escaped from this operation since the explosion. The mine tonight was burning fiercely, with government, state and volunteer rescuers working desperately to subdue the flames.

LITTLE HOPE OF SAVING MEN.

The depth of the two main shafts is 600 feet, and the mines are connected underground. There are two other shafts into the mines, but the explosion totally wrecked three out of the four. The long entrance leads into mine No. 6, and by means of it the rescues were made. No. 5 mine, apparently, is completely shut off from the surface, and rescuers hold little hope of reaching the large number of men in time to save them.

The explosion occurred in mine No. 5. The two shafts of this mine were demolished. It is believed the explosion traveled through this mine into No. 6. One shaft of the latter mine was wrecked, but the other remains intact, and was the salvation of at least forty-nine of the workmen.

DEATH TOLL TAKEN FAR UNDERGROUND.

This little mining community of 1,500 persons was shaken by the muffled rumbling of the explosion. At first, there was no smoke, but men on the tipples knew that far underground the toll of death was being taken.

Superintendent Thomas Donaldson, of mine No. 3, another operation of the company; Local Superintendent M. E. Kent and General Superintendent F. B. Hayles, of the New River Collieries company, were at the scene of the disaster within a short time. Superintendent Donaldson and an expert rescue crew were lowered down the shaft of No. 6 mine.

For a time the crowd of frightened women and children at the tipples waited in suspense, but soon the signal came to hoist away, and the cage appeared. It bore two men badly hurt, members of the rescue party and two bodies. Other trips were made as rapidly as possible, and each time blackened and burned miners were brought to the surface, until sixty-three men had been brought up, four of them dead. The injured were assisted to nearby houses, where physicians waited to care for them.

MINE WRECKED BY EXPLOSION.

The rescued men expressed doubt that any of the thirteen miners still in No. 6 shaft would be taken out alive. Some of the men said portions of No. 5 mine were badly wrecked, and they believed that the entrance connecting with No. 5 mine had been entirely destroyed.

Of the bodies recovered, two are Americans, one a foreigner and the fourth a negro. A large portion of the miners employed are Americans.

A United States government rescue car reached the mines from Bluefield, W. Va., at 9 o'clock, and another will arrive here from Pittsburg, Pa., at noon tomorrow.

The New River Collieries company is connected with the Guggenheim interests.

The rescue parties worked throughout the evening. Their combined efforts were directed to mine No. 5, where the men are entombed. Notwithstanding the feverish haste of the rescuers, they made little progress from shaft 6 into shaft 5 because of the intense heat and gases.

Many women were induced to seek their homes tonight and there was little excitement at the mines. Although the rescuers were making slow progress and had expressed little hope of getting the entombed men in No. 5 mine out alive, they had the work well in hand. At 10 o'clock they had installed new fans, making the task of boring into mine No. 5 less difficult.

The New River colliers tonight ordered two carloads of coffins from Cincinnati.

FIRST BIG DISASTER IN SEVERAL YEARS.

The present mine disaster is the first of considerable extent in West Virginia

MURDERED MAN IS FOUND IN PARK

Identity of Man Not as Yet Known—Hole in Head Indicates He Was Shot—Coroner's Inquest Today.

Just as the gray dusk of evening fell over Piedmont park yesterday, and small boys began to quit games of baseball to return to their homes, a negro man, employed by the city as a laborer on the construction of a new sewer in the neighborhood, dashed up the hillside to the plaza from the deep-wooded ravine at the north end of the lake, and frightened the small boys with the news that a murdered man lay within fifty yards of their play.

Officer Freeman was watching the game of baseball, and he immediately telephoned police headquarters for a detachment of plain-clothes policemen and detectives to come to the park.

Call Officers Dodd and Shumate were the first to arrive upon the scene. Twenty-five yards below the north end of the lake, and to the right of the tennis courts, down in a deep hollow, near a narrow path leading through the woods, was lying the body of a dead man, apparently 30 years of age. He wore good clothing.

Signs of a Struggle.

On a bench close by was the coat, hat, collar and tie, arranged in order and with care. The man was lying on the flat of his back, his right arm outstretched. One suspender strap was broken, as though done in a violent struggle with the murderer.

In the right hand pocket of the murdered man was found a half-dollar, two dimes, a nickel and a one-cent piece.

In his right-hand coat pocket were found two 38-caliber revolver cartridges. In his inside coat pocket was a safety razor blade which had not been taken out of its wrapping.

Man Badly Bruised.

Bloody marks and dark bruises on the man's face and head indicated that a bloody conflict had preceded his death.

His left eye was swollen as big as an egg, and black. Behind his right ear was a large black bump. Behind his left ear was a large hole, which looked as though a bullet had penetrated his head. Blood had run from this hole, and formed a pool.

Sergeant George Bullard, Detectives Wiley and Tuggle arrived on the scene and proceeded with the investigation of the death mystery.

G. F. Cunningham stated that he had seen the dead man about 12 o'clock leaning against a large tree about fifty feet from the scene of his death, and apparently in a watchful attitude, as though expecting some one. He stated that he thought that the man was a detective watching some one down further in the woods.

The fact that two revolver cartridges were found in the coat pocket of the dead man caused the detectives to think that probably it was a case of suicide. A thorough search was made in the high grass around the dead man's body for a revolver, but no pistol could be found.

Nothing to Identify Him.

There were no letters or identification cards or papers in the man's clothing. Not a trace of identification was found outside of the laundry marks on the man's collar. The name "Paul" was stamped in large letters on it, and the initials "P. G." were scratched in pen and ink.

The man's coat was tailor made, marked "T. M. C. Co.," Chicago. He wore a gray hat, marked "B. H. Levy Bro. & Co., Savannah and Brunswick."

A policeman said that he believed that he knew the man's face, but could not recognize him due to the bruised condition of it.

Coroner Paul Donehoo visited the scene of the murder. An inquest will probably be held this morning. The body was removed to A. G. and Ray Donehoo's undertaking establishment.

Man Acted Strangely.

At Coroner Donehoo's investigation at the scene of the murder last night two men named Baker and Palmer stated that at 6:10 o'clock they passed the place Tuesday morning and saw the murdered man there. They also declared that at 10 o'clock they returned through the same path, and that he was then standing against a tree near the place.

Baker is the superintendent of the construction work on one of the city's sewers being built near the place, and he declared that while passing to and from his work he had seen the unidentified man hanging about the place for the last three days.

Dr. J. W. Hurt, county physician, at the request of the coroner, examined the bullet-wound in the man's head. He stated that the shot was fired at close range, which was indicated by powder burns found around the bullet wound.

There were many who believe that the man committed suicide. Some even advanced the theory that the loss of his pistol was accounted for by the probability that someone passing had stolen the pistol.

GUNS AND AMMUNITION FOR IRISH NATIONALISTS

Londonderry, Ireland, April 28.—The Irish Nationalist volunteers, a body similar in organization to the Ulster Unionist volunteers, made matters even with their political opponents early today by successfully landing a large consignment of arms.

The weapons, which are said to have been brought from America, were taken ashore at a remote spot on the coast of the county of Donegal, in the far west of Ulster.

A foreign steamer had been seen off the coast for three successive nights. Late last night a number of fishing craft approached, took off the cargo and succeeded in evading the coast guards and landing the rifles, which were quickly distributed.

The size of the consignment is unknown, but it is believed to have been considerable, although not equalling the 40,000 rifles and 500,000 rounds of ammunition the Unionists received on April 25.

DORSEY MAY ASK FOR EARLIER DATE

Solicitor Will Insist That the Ragsdale and Barber Affidavits Remain a Part of the Record.

Having announced that he is amply prepared to combat the amendments to the motion for a new trial by Frank's attorneys, Solicitor General Hugh M. Dorsey, in all probability, will go before Judge Ben Hill today and make the startling request that Judge Hill reconvene the retrial hearing Thursday morning—a day earlier than set.

When attorneys for Frank's defense last Friday presented to Judge Hill the affidavits of Rev. C. B. Ragsdale and Anna Maud Carter, who testified that Conley had confessed to Mary Phagan's murder, Solicitor Dorsey asked that the hearing be postponed in order to give the prosecution time to prepare a counter showing.

Affidavit a Frame-Up.

The postponement was effected, and the re-convention date set for Friday of this week. Since that time Ragsdale has repudiated his affidavit, declaring that his story was a "frame-up," and R. L. Barber, whose affidavit corroborated Rev. Ragsdale, has made a similar confession, saying his story was "molded."

Whether or not there have been any such developments in the story of Anna Maud Carter, the negro woman who says Conley made a complete confession to her, neither Solicitor Dorsey nor any of his staff would say yesterday afternoon. They declare, however, that they are well-equipped to combat this evidence of the defense.

Another interesting fact that came to light Tuesday afternoon was the prospect of Solicitor Dorsey making an insistent request of Judge Ben Hill to revoke his action in expunging the Ragsdale and Barber affidavits from the testimony presented by the defense in its retrial motion.

The Chicago Angles.

It was said by members of Dorsey's staff yesterday afternoon that the solicitor had been making an investigation on the Chicago "angles" of the Frank case which Detective Burns and his men had been investigating. It is said that the results of these out-of-town inquiries by Dorsey resulted in sensational disclosures which will be produced at the hearing tomorrow.

Frank's attorneys yesterday had Judge Ben Hill to eradicate that part of the amendment of the retrial motion which had to do with the affidavits of the Rev. Ragsdale and R. L. Barber. The order was granted, and it will likely be the nucleus of a fight to be waged by the solicitor, who will seek to have it revoked, so that he will be able to make his counter showing.

Attorneys for Frank, as was announced in their statement published in Tuesday morning's Constitution, de-

JUDGE THOMAS G. JONES SUMMONED BY DEATH

For Half a Century He Was One of Most Prominent Figures in Alabama.

Montgomery, Ala., April 28.—Thomas G. Jones, federal judge of the middle Alabama district, former governor of the state and one of the most prominent figures in Alabama for half a century, died this afternoon at 3:30 o'clock at the family residence here. Judge Jones was born in Macon, Ga., in November, 1844, and with the exception of the periods spent at the Virginia Military institute and with Generals Lee and Gordon during the four years of civil war, he spent his entire life in this state.

Following the war Judge Jones was a leader in restoring white supremacy in Alabama, and edited "The Daily Picayune, a powerful influence during the days of reconstruction. In a memorial day address in this city in 1874, he sprang into national prominence by using the sentence:

"We can bequeath to our children nobler legacies than discord and hate."

He was elected governor in 1890, and in 1902, upon the death of Judge John Bruce, he was appointed federal judge by President Roosevelt. He leaves a large family connection, all of whom are prominent in the affairs of the state, including a half brother, Major Jones, who is connected with the regular army in Washington. Funeral arrangements have not yet been completed. The flags over the state capitol were half-masted as soon as the death was announced.

Governor O'Neal tonight issued an official proclamation on the death of Federal Judge Thomas G. Jones, in which he reviewed his life's work and highly eulogized the deceased jurist. The proclamation orders the state capitol to be draped in mourning for thirty days, and all state offices closed on the day of the funeral.

700 AMERICAN REFUGEES HELD AT QUARANTINE

New Orleans, April 28.—Approximately 700 American refugees from Mexico have arrived at the quarantine station 100 miles down the Mississippi river from New Orleans. They are awaiting expiration of the government health authorities' limit of six days from port so that they may proceed to New Orleans. The boats reported at quarantine today were the Jason, Mexico, City of Mexico and the Livingstone. Thirteen refugees were taken off the latter and the vessel allowed to proceed because of its perishable cargo. The other vessels were held there.

The government is preparing to take care of 2,000 refugees during the time they are held at quarantine. A river steamer, chartered by the government, left here tonight at 6 o'clock bearing supplies. Immigration authorities here have instructions to care for those without funds after they land at New Orleans. All those who so desire will be sent to their homes at government expense.

MILL MEN KNOCK COTTON EXCHANGE

Manufacturers Want the New York Concern Regulated by Act of Congress or Put Out of Business.

New York, April 28.—Unless the New York Cotton exchange "can be so regulated by action of congress as to compel the performance of its proper functions," it should be abolished, in the judgment of the American Cotton Manufacturers' association. In the closing hours of the association's annual convention here today speakers attacked the methods of the local exchange. The abolishment of the mart unless regulated by federal legislation was urged in a resolution adopted unanimously at the suggestion of Lewis W. Parker, chairman of the committee on cotton exchanges.

Mr. Parker's report was read after Arthur R. Marsh, president of the New York Cotton exchange, had made an address on the new rules of the exchange.

Exonerating Mr. Marsh and other members of the New York exchange of any personal intention to do injury, Mr. Parker denounced exchange methods, especially those which he said obtained to depress or inflate prices for purposes of manipulation. He said he hoped reforms would be obtained through national legislation.

"There has been presented within the last three months," Mr. Parker said, "the publication on the patr of New York Cotton exchange of quotations of contracts for delivery, indicating the price of the raw material at times as much as 2 cents below the real value of that material, and 2 cents below the price the producer was obtaining in the south.

"We wish to deplore conditions which make it possible for large operators, through manipulation and improper use of the exchange, to depress cotton at one time and advance it at another when the actual price of the raw material is changed but little if any during the interval."

Mr. Marsh replied to Mr. Parker's report by saying that the exchange was anxious to comply with the wishes of the cotton men. An amendment to the resolution was adopted to the effect that the association was ready to cooperate with the exchange in any real effort to accomplish reforms.

THREE BATTLESHIPS HEADED FOR MEXICO

Key West, Fla., April 28.—The United States battleships Virginia, Georgia and Nebraska passed here today on their way to Mexican waters. Mail for the marines and bluejackets already on ships off the Mexican coast was taken out to the battleships from here by the mine planter, General Schofield.

ENVOYS SEEKING PEACE BUT THE UNITED STATES IS PREPARING TO FIGHT

SEVEN AMERICANS REPORTED KILLED BY MEXICAN MOB

Unconfirmed Report Reaches Vera Cruz of Bloody Work at Cordoba—Victims Taken From Jail.

EMBARGO ON AMERICANS LIFTED BY THE DICTATOR

They Are Free to Leave Mexico City—Several Train Loads of Refugees Are Expected at Vera Cruz.

Vera Cruz, April 28.—An unconfirmed report was received here today to the effect that six Americans had been taken from the jail at Cordoba and killed, and also that another American had been put to death at Cosamaloapan, a town about 60 miles south of Vera Cruz.

Neither Rear Admiral Fletcher nor Consul Canada had what they regarded conclusive information as to the execution of the Americans, but they were investigating the report.

EMBARGO LIFTED ON AMERICANS.

Consul Canada was advised today by the Brazilian minister at Mexico City that the embargo on Americans at the capital had been entirely raised, and that they were free to depart as they pleased.

The American consul also ascertained that the women among the refugees detained at Cordoba had been removed to hotels. The women still are experiencing difficulty in procuring food, but their condition is said to have been materially improved.

It is known that many of the Americans who had been held at Orizaba will reach Vera Cruz on a train, the arrival of which is expected hourly.

A. R. Emery, of the La Fe Milling company, of Aguas Callentes; G. Elckel, a hardware merchant; C. A. Smith, an Englishman, and a number of other refugees from the state of Aguas Callentes, are said to have been obliged to pay 250,000 pesos for a train to carry them to Mexico City.

TRAIN LOADS OF REFUGEES.

Rear Admiral Fletcher was advised by telegraph from Mexico City today that several train loads of refugees were ready to leave the capital.

A train which left here at 7 o'clock this morning with the expectation of meeting a refugee train from Mexico, returned later in the day, not having found a train waiting at the gap in the railroad. The officials on board were unable to get any information as to the probable time of arrival of the expected train from the capital.

Senator Guillermo Obergon, of Mexico City, who was passing through Vera Cruz from Tampico on the way to the capital and went out on the train from here, remained at the break in the track. He desired to go on to Cordoba to deliver representations from Consul Canada to officials at Cordoba on behalf of the prisoners being held there.

MEXICAN REPORTER PUT UNDER ARREST.

Rodrigo de Llano, the reporter of El Imparcial in Mexico City, who came here yesterday to write a story of the situation in Vera Cruz for his newspaper, was arrested last night on the complaint of an American, who charged him with having been the interpreter while a mob was making trouble in the capital and with complicating the situation of the American by misrepresentations.

De Llano was released and told to report later at headquarters. He called there today and disclosed his identity. Later he was received by Captain Hue, chief of staff for Rear Admiral Fletcher, who gave him much information that the privilege to go anywhere in the city he desired.

Vera Cruz, April 28.—Americans here who were preparing a memorial protesting against the United States government further delaying a general movement of its forces into Mexico have decided to take any action at the present time which might be likely to embarass the administration.

Three American tropedo boats anchored inside the harbor here today.

516 AMERICANS LEAVE MEXICO CITY.

Mexico City, April 28.—Mexico City was tranquil today. There have been no demonstrations here since last Sunday.

Sir Lionel Carden, the British minister, today advised all Americans that the last refugee train from the capital would leave this evening at 6:30 o'clock. Up to noon 516 Americans had registered for passage on the train.

Headquarters of the Americans in the Hotel Geneve was thronged with Americans, men, women and children, during the day.

The refugee train will proceed from the capital to Puerta Mexico instead of to Vera Cruz, to avoid hardships to the women and children entailed by the long walk from Soledad across torn-up tracks to the end of the line controlled by Americans. The train, in two sections, will fly British and American flags. An escort of 100 federal troops and six representatives of the British legation will accompany the train. A British warship in the harbor of Puerta Mexico will guarantee protection when the refugees arrive.

Sir Lionel Carden today telegraphed

Two Distinct Branches of Activity Manifest at Washington—One for Peace and One for War.

MEDIATORS NOT READY TO ANNOUNCE PLANS

President Wilson Hopes for Peaceful Outcome, But Continues to Prepare for Eventualities—Funston Is Ordered to Land 5,000 Soldiers at Vera Cruz.

Washington, April 28.—The Mexican crisis now is centering on the issue between those who are seeking through the good offices and intermediation of Latin-America to find some middle ground for pacific adjustment, and those who regard a resort to arms as an inevitable consequence of what has occurred.

Throughout today two distinct branches of activity were manifest here—that of the envoys of Argentina, Brazil and Chile in formulating a plan of adjustment to be submitted to the United States and the Huerta regime, and that of the military and naval forces of the United States which continue to go forward steadily in preparation for any eventuality which may develop. The arrival of General Funston and a brigade of 5,000 troops at Vera Cruz was one of the notable military developments of the day.

CHIEF INTEREST IN WORK OF ENVOYS.

Chief interest was directed to the sessions of the South American envoys, lasting through the day and late into the evening. The meetings were held at the Argentine legation, where, seated about a long mahogany table the three envoys deliberated much as an international court would weigh a case of supreme importance.

At the white house President Wilson and his cabinet advisers held a lengthy meeting, devoted chiefly, however, to the Colorado situation, although the Mexican crisis continued in the foreground. To a large extent, however, it was felt that the Mexican situation was now before those who had undertaken to exercise their good offices and care was taken not to embarrass the efforts of the envoys by any announcement of conditions of settlement which the United States would insist upon. A spirit of optimism over the progress of the negotiations was apparent in executive quarters.

While the mediators are not ready to announce any plan, or even to indicate when a proposal might be complete for presentation to the two parties, yet it became known that probably three or four days, or even a longer time, might elapse before they would be ready to take their next step.

PRESSURE BROUGHT ON THE DICTATOR.

Secretary Bryan was called upon by ambassadors and ministers of European as well as South American countries. Among the visitors was the French ambassador, M. Jusserand, who expressed the warm sympathy of his country in the cause of mediation. With the exception of the three South American countries, no power has taken any official action, although the European diplomats are doing their utmost to further the cause of peace.

Sir Cecil Spring-Rice, British ambassador, also was one of Secretary Bryan's callers, his purpose being to report the results of the interview held

C. F. von HERRMANN, Section Director.

yesterday in the Mexican capital by Sir Lionel Carden, British minister, with General Huerta. Sir Lionel strongly impressed upon the general the opinion of his own government that he should accept promptly the good offices tendered by the three South American republics.

Ministers Naon and Suarez, of Argentina and Chile, respectively, talked at length with Mr. Bryan late in the day. Ambassador Da Gama had seen the secretary earlier. These conferences were of a wholly informal character, chiefly to obtain the viewpoint of the American government.

The three peacemakers are proceeding slowly and carefully, gathering all the information from various American and Mexican sources, to the end of considering every element in the controversy. They are careful to make a distinction between their present exercise of good offices and what may come later if the good offices advance to the stage of mediation. They take the view that their work is one of far-reaching effect, not only in the present controversy, but as affecting the continued peace of the entire hemisphere, through the united efforts of American nations, North, South and Central.

WHERE ENVOYS ARE CONFERRING.

The Argentine legation, where the sessions are being held, is in the fashionable residence section of the capital, far removed from the departments which recently have been the scene of so much warlike preparation. Here, in the library of the legation, the three envoys are carrying on their deliberations. There has been no formal organization as an international body, with chairman and other officers, except that as the meetings are held at the Argentine legation, Dr. Naon, the Argentine minister, is piloting the way.

Dr. Naon is a diplomat of wide experience, an international lawyer who at one time held the chair of constitutional law in the University of Argentina, a former member of the Argentine cabinet and congress, and prominently mentioned as a candidate for president. The Brazilian ambassador, Senor Da Gama, is, by reason of his rank, the senior member of the body. He, also, is a trained diplomat, a product of the younger school of Brazilian statesmanship, and one who is highly regarded by Baron Mueller, Brazilian minister of foreign affairs, who recently visited this country. The Chilean envoy, Senor Suarez, brings to the meetings the advantage of a long and thorough acquaintance with Mexican affairs, as he was for some years Chilean minister at Mexico City.

COMMISSION RULE FOR MEXIC REPUBLIC.

The sessions of the mediators are being conducted in strict privacy, and no announcements are being made on the various stages of progress. Later on, it is expected that, if the situation warrants, an official statement will be issued. But this is not likely while the attitude of the two sides is being weighed and an effort made to compose the most serious points of disagreement. Thus far, it is understood, neither side has submitted formal conditions, nor has either side been approached as to concessions which might be made, the present discussion being a general survey of the field, and conferences with the best-informed men on both sides, to develop some avenue of approach toward a satisfactory middle ground.

Reports circulated in European diplomatic quarters during the day were that one of the plans being considered contemplated a provisional commission form of government in Mexico. This was not confirmed by those acquainted, with the work of the envoys, and it was stated in behalf that this and other reports likely to be circulated could be set down as entirely speculative in the present stage of the negotiations or as calculated to embarrass their efforts.

Another report which was discussed widely was the possibility that the three intendancies might go to the capital City to talk with General Huerta face to face. It is known that the envoys have not yet completed their plans, but the long interval that would elapse in their trip and the difficulty that might arise in leaving their official duties here, it is realized, would considerably affect such a plan.

FUNSTON ORDERED TO LAND TROOPS.

General Funston found awaiting him at Vera Cruz today this order:

"Acting in accordance with instructions received from the president, the secretary of war directs that on your arrival at Vera Cruz, Mex., with your command, you relieve the navy of its duties ashore connected with the occupation and control of Vera Cruz, Mex., and environs.

"The secretary of war is explicitly requested by the president to say to you that the president entirely approves in every respect of the course which Admiral Fletcher has pursued in the occupation, control and management of the city of Vera Cruz since his landing, that he has the greatest confidence in Admiral Fletcher's judgment; has learned to depend upon his long acquaintance with situation there for guidance and desires that you keep in close touch and consultation with the admiral and seek to continue in intimate harmony with him the policy he has initiated there except so far as changes of circumstances may demand a different course.

"Orders are to be issued by the president through the navy department detaching the marine corps contingent at Vera Cruz for service with the army. The effect of which orders will be to place the marine corps contingent so detached under your command."

5,000 U. S. SOLDIERS TO LAND AT VERA CRUZ

General Funston Arrives With the Fourth Brigade—All Quiet in City.

Vera Cruz, April 28.—The transports bringing the Fourth army brigade, comprising the Fourth, Seventh, Nineteenth and Twenty-eighth infantry regiments, under Brigadier General Funston, were made fast at the docks shortly before 10 o'clock this morning. There are 5,000 men in the brigade.

Brigadier General Funston, accompanied by Captain Harry McL. P. Huse, chief-of-staff of Rear Admiral Fletcher, immediately came ashore to confer with Rear Admiral Fletcher before calling on Rear Admiral Badger, commander-in-chief of the Atlantic fleet.

Fletcher and Funston Confer.

Captain Huse had called on Brigadier General Funston earlier in the morning and had presented the compliments of Rear Admiral Fletcher. The latter, he explained, desired to talk with the general regarding his plans.

Rear Admiral Fletcher and Brigadier General Funston conferred later and went over in detail the situation in Vera Cruz.

The arrival of the soldiers was not marked by any ceremony. The few longshoremen about the docks looked on without interest.

The transport Meade, General Funston's report said, was hindered in its progress toward Vera Cruz by huge collections of barnacles. There was no damage to the machinery of the transport, he said.

Six federal soldiers, who wandered too close to the American lines, were captured late yesterday by marines. There is no desire among the Americans to attack or in any way assume an offensive against the Mexicans, and when the marines found themselves confronted by a squad of Huerta's soldiers they did their best to entertain them. They gossiped with the Mexicans regarding the news beyond the lines, and after a field luncheon, shook hands with them and sent them away.

Huerta Won't Attack.

That Huerta has decided not to try conclusions with the American forces near Vera Cruz is indicated by a report brought to the city by passengers arriving from the outlying districts. The passengers said they saw General Maas, former commandant of Vera Cruz, and his men making their way farther into the interior from Soledad. With him were the few cadets who escaped from the naval academy after the battle fought there in the second day's engagement.

The American forces are tolerant of almost all Mexicans who enter their lines, and it is not improbable that any Mexican officer might with safety openly enter and depart from Vera Cruz.

The naval authorities did not transfer authority on shore to General Funston today. The men landed at the ports, unless present plans are changed, will go ashore tomorrow and the city will be formally taken over by General Funston Thursday.

111 AMERICANS FREED BY HUERTA OFFICIALS

Washington, D. C., April 28.—Gaston Schmutz, United States consul at Aguas Calientes, and 110 other Americans who were thrown into jail by Mexican federals at that place last week, reported to the state department late today that they arrived at Mexico City en route to Vera Cruz.

W. H. Mechling, of the geographical survey of Canada, who has been for some time in Mexico in behalf of the Universities of Harvard, Pennsylvania and Columbia, spent two days at Cordoba. He was detained, but not put in jail, and finally was permitted to proceed. He is an Englishman, though he is in reality an American.

Mechling went to the jail in Cordoba Sunday afternoon and talked to the prisoners, among whom are several he is acquainted with. They begged him to communicate their plight to Consul Canada and Rear Admiral Fletcher in an endeavor to secure their release.

The prisoners are herded like cattle and are jeered almost constantly either by the keepers or the Mexicans outside of the jail. They are permitted to have food and drink only when the whim suits the jailers, and are kept in a state of terror by frequent threats of death.

Among the prisoners is a young American woman with a six-months-old infant. There are several other women and children, and the total number of all nationalities, according to Mechling, is 85.

One of the imprisoned men is Superintendent Emery, of the Vista Hermosa sugar plantation of Vera Cruz state, who entertained John Lind, President Wilson's representative, a few months ago. Mechling saw Emery and 17 persons, chiefly Americans, held at Tuxtepec, across Vera Cruz from surrounding plantations, is in jail at El Hule, near Tuxtepec.

Mechling left Tuxtepec last Wednesday with a boy-engineer of unnamed name and his nationality as British. An excited crowd of Mexicans surrounded the train, and it left only with difficulty that he persuaded them to allow him to board. At El Burro another mob searched the train and robbed him of all but two bills, which he had hidden in his shoe. At Vista Blanca 14 whites and 32 negroes were brought aboard the train.

A howling mob met the train at Cordoba and shouted insults at the Americans. The crowd surrounded the jail long after the doors had closed on the prisoners.

E. B. Weems, a sugar plantation owner, who was previously held at Cordoba, escaped by crossing the river in a launch to Alvarado. He arrived safely in Vera Cruz and sailed for the United States yesterday on the steamer Mexico.

WOUNDED AMERICANS SHOWING IMPROVEMENT

Washington, April 28.—Marked improvement in the condition of most of the wounded American marines brought at Vera Cruz was reported late today by Rear Admiral Badger. The report said James Ayres, marine private, had been restored to duty, and of the condition of others added:

"Henry Pulliam, fireman, first class, lung complications, fair; prognosis good; George A. Linsman, ordinary seaman, condition critical, but improving; Henry W. Nelson, coal passer, mate, second class, critical, but improvement marked; Clarence D. Barnberger, seaman, condition improved; William Pinkows, ordinary seaman, paralysis disappeared; J. G. Peebles, private marine corps; William C. Keas, chief steward, and Edward J. Gisborne, electrician, third class, all practically out of danger.

President Wilson today issued an order directing all marine hospitals and quarantine stations of the government to receive sick and wounded of the army and navy.

CIVIL GOVERNMENT PROVIDED VERA CRUZ

Washington, April 28.—American civil government under martial law was set up in Vera Cruz at 5 p. m. today with Robert J. Kerr, lawyer of Chicago and Mexico City, as civil governor.

Rear Admiral Fletcher cabled the navy department today that this step had been taken following a conference between Brigadier General Funston and himself.

Other civil officers are:

Inspector of Customs and Customs-Commander Stickney, U. S. N.

Administrator of Justice—William F. Buckley, lawyer of Chicago and Mexico City.

Treasurer—Charles H. Stewart, of Indianapolis, Ind., and Cardoba, Mexico.

The food problem was solved today when a search of freight cars in the railroad yards disclosed 900 tons of stable articles of provisions consigned to Vera Cruz merchants. Admiral Fletcher reported that this would relieve anxiety on account of food shortage for some time to come.

Congress Is "On to" Effort to Manufacture Clamor for War

By John Corrigan, Jr.

Washington, April 28.—(Special.)—The relief among all political parties in Washington over the possibility of averting war with Mexico is tempered by indignation at the attempts of a narrow jingoistic element to fan the flames for obviously selfish ends. There are many differing opinions on the political phases of the situation. But there is no divergence of sentiment in the avalanche of criticism leveled at the methods shown in the Willaocoochee, Ga., incident, wherein the father of Randolph Summerlin, slain at Vera Cruz, was importuned to criticise the government for even listening to mediation. The incident is likely to go into The Congressional Record and become historic.

This War Unwelcome.

The clash with Huerta presents a condition unprecedented in American history.

With the exception of the congressional hotheads and long-distance warriors, and the sparse but sinister interested concerns outside of congress, there has not been any appetite here for intervention.

It is almost universally recognized that we have nothing to gain in Mexico. It is seen that a war with that country means the expenditure of billions of dollars, which we may never recover, and the loss of thousands of lives.

Imperialism and permanent occupation has never entered the minds of any but the few who went into Mexico with their eyes open to the perils, and who now clamor for American occupancy to protect their investments.

So, when the news came from Vera Cruz, the political consensus was that we did what, under the broadened Monroe doctrine, we were compelled to do, and that we had no alternative.

But, in place of an exultation, there was sorrow that we were fronted by a bloody and tragic duty, bound to it by moral obligations, but regretting the step we had to take.

The War Hound.

The partisan and journalistic war hund had no such scruples.

It saw the possibilities of enriching a few landowners at the expense of the whole national treasury, at the cost of blood shed by the best and bravest young men in America.

It knew that mere temporary occupancy wouldn't help its despicable game. We must get in there and stay in there, to make these precious investments more valuable.

Lives of young men, the treasure of the nation, didn't matter to the warhund as against dollars and personal prestige.

Turning on the Hysterics.

So, the hysterics were turned on full pressure. Each incident from the front is adroitly and fiendishly twisted in such a way as to rasp American prejudices, as to inflame American hate.

No dodge was too vicious, no device too low, to find a response in the unhealthfully disposed to avoid trouble with foreign powers, and carefully geared up to a vengeful war spirit.

The Willaocoochee Incident.

In line with this campaign, the Willaocoochee incident was born. Randolph Summerlin, a brave young Georgian, died in line of duty at Vera Cruz.

So far, so good.

But the instant there was possibility that mediation would proceed, and that no further lives would be lost, Summerlin's father and brothers, in the little Georgia town, were telegraphed to know if they didn't think it an "outrage" that their son's blood should have been "spilled" in vain; if they didn't think we had weaklings in Washington; if they didn't want war to the knife.

Back in Their Teeth.

Right back in the teeth of the plundering war bund came the answer. The father and the four sons survived trusted the administration implicitly. They stood ready to offer their service.

But they construed the invitation to attack the administration as a "gross insult," and they emphatically announced the mercenary spirit that would, needlessly and recklessly, plunge more homes into the grief that absorbed their own home.

But the hund still are now poison and lies, to inflame the public mind, to fool the public mind, for private gain.

But congress is "on to" its game.

AMERICANS SLEEPING ON MEXIC JAIL FLOOR

Other Foreigners Also Held at Cordoba—Their Food Is Insufficient.

Vera Cruz, April 28.—Sleeping on the stone flagging of the jail patio with insufficient food, no sanitation, and threatened every night with assassination by drunken jailers, is the experience of the Americans and other foreigners, including women and children, confined at Cordoba.

Their release has been promised by General Maas in reply to a request from American Consul Canada through a messenger who returned to Vera Cruz today.

W. H. Mechling, of the geographical survey of Canada, who has been for some time in Mexico in behalf of the Universities of Harvard, Pennsylvania and Columbia, spent two days at Cordoba. He was detained, but not put in jail, and finally was permitted to proceed. He is an Englishman, though he is in reality an American.

MOBILIZATION CAMP TO BE PLACED AT MACON

Tentative Plans for Handling National Guard if There Should Be War.

New York, April 28.—Tentative plans for the handling of the national guard of the states within the jurisdiction of the department of the east of the United States army if they should be called into the federal service were made public at Governor's Island. The following mobilization camps, besides that in New England, have been selected:

Staten Island, New York; Mount Gretna, Pa.; Pine Thorpe, Md.; Sea Girt, N. J.; New Castle, Del.; Macon, Ga.; Camp Fleming, near Jacksonville, Fla.; Fort Thomas, Ky.; District of Columbia at Fort Myer, Va.; Terra Alta, W. Va.; Camp Glenn, N. C.; Lexington, S. C.; Nashville, Tenn.; Montgomery, Ala., and Meridian, Miss.

Should there be a mobilization, a brigadier general with his staff will be in command at each general concentration camp, of which there will be at least three. One will be located either near Tampa, Fla., or Newport News, and this will be the general distributing point for troops below the Mason and Dixon line. Another camp probably will be located in the lower New England states and the third somewhere on Long Island.

REBEL CHIEF TO SALUTE FLAG OF UNITED STATES

Gen. Murgia, After Defeating Federals, Says He Has No Interest in Huerta's Quarrel.

Eagle Pass, Texas, April 28.—The Vanguard of the rebel forces late today occupied Piedras Negras. General Guajardo, the federal commander, whose forces were defeated at Allende and who was wounded in the battle, died last night near the Rio Grande as he was being brought to the American side.

General Murgia, the constitutionalist chief, with the main body of his command and three hundred federal prisoners, is expected to arrive here early tomorrow. He announced that he would hoist an American flag and fire a salute in Piedras Negras to show his friendship for the United States. The advance guard of rebels which entered Piedras Negras late today numbered ten men. They rode at once to the bridge and halted the escaping fugitives who feared the rebels' arrival, announcing that all property and citizens would be protected.

Small detachments of federal soldiers crossed to the United States today for protection. Twenty-five federals, including several officers, are detained by the Seventeenth Infantry camp. Other detachments have been captured by the cavalry patrols.

General Murgia did not execute any of the federals captured at Allende. He said he had no interest in Huerta's quarrel with the United States, and declared all Americans in his district would be protected.

BRITISH CONCERN TAKEN BY AMERICAN ADMIRAL

Vera Cruz, April 28.—Rear Admiral Fletcher last evening seized the docks, yards and buildings of the Terminal company, a British-owned concern, and control over which he regarded as necessary in order to facilitate the resumption of the normal business activity of the city. The admiral had been endeavoring to rent the property. The management quoted a figure which the naval authorities considered exorbitant, and Admiral Fletcher ended the controversy by taking advantage of his powers under martial law and assuming possession of the property.

Prior to the seizure a high official of the company had a British flag raised over the water station far out in the bay. It was pulled down nothing, however. W. Morcom, manager of the Mexican railway and president of the Terminal company, called on Rear Admiral Cradock, of the British cruiser Essex, and related the circumstances. The admiral advised Mr. Morcom to present his claims to the British foreign office.

The Terminal company is a British concern, most of the stock of which is held by the railroads, two of which, the Interoceanic and the Mexican, are British-owned.

London, April 28.—The seizure yesterday by Rear Admiral Frank F. Fletcher, of the property of the British-owned Terminal company at Vera Cruz, is accepted by the British foreign office as quite within the admiral's rights. It was stated today that if the Terminal company presented a claim to the British foreign office, it will be forwarded to Washington in the ordinary course.

BREAKING OLD GLORY TO VERA CRUZ BREEZE

Ceremony of Hoisting American Colors Most Impressive. Americans Greatly Moved.

Vera Cruz, April 28.—History was repeated yesterday afternoon in the ceremony of raising the Stars and Stripes over Vera Cruz. On the same spot in 1847 General Winfield Scott broke to the breeze the American colors as he landed to begin his march at the head of the American troops to Mexico City.

The hoisting of the flag was carried out with the full naval ceremony in the presence of Rear Admiral Badger, commander-in-chief of the Atlantic fleet; Rear Admiral Fletcher and the plucky 1,200 men from Fletcher's ships who took the city from the Mexicans, April 21.

Before the low but imposing facade of the Terminal hotel, where the ceremony took place, the broad plaza spreads to the dock, giving a view of the greater part of the harbor and the great armada of battleships outside the breakwaters. Beyond all lay the blue expanse of the Gulf of Mexico flashing into the brilliant sunshine.

The Fighting Men Arrive.

Long before the time set for the ceremony Americans from all parts of the city started toward the plaza. The first of the fighting men to arrive were Colonel Neville's battalion of marines. Marching in columns of four and clad in khaki they were given by the admiral the right of the line. Colonel Neville and the field officers, who were mounted, took their places in front of the battalion while the band men of the Utah, also in khaki, fell in on the left.

Next came battalions of bluejackets clad in white and accompanied by their machine guns and hospital corps men. The Florida's band led them to their places behind the marines, and halted the white bandsmen forming directly in front of the flagstaff, where the American admiral stood with his staff officers. Behind Captain Rush stood Rear Admiral Fletcher.

His staff, all the members of which are now officials of the city under American control, took their place on the left of the center. Finally Rear Admiral Badger, the supreme commander with the officers of his staff in full dress white uniforms, took their places at the right of the center.

Band Played the Anthem.

As the signal to haul away on the halyard came from the bluejackets, McDonnell, standing almost on the spot where, as chief signal officer on the day of landing, he fought for his life while the navalmen standing with the whole city was rattling under the rifle fire of the Americans and Mexicans.

During the full period of the Minnesota's twenty-one guns salute, the battalion of marines, the bluejackets and the admirals, with their right hand at their hats, the residents of the American civilians and British and French spectators stood bareheaded. Only a few Mexicans, residents of Vera Cruz were in the throng, and these stood apathetic and silent during the ceremonies. From among the half-Indian workmen about the railroad yard who witnessed the ceremony not a few of the American women who recently had been in fear of their lives in Inland Mexico were with relief when they saw the emblem which guaranteed their safety floating above them.

HE SAYS THE MEXICANS WILL DIE FOR HUERTA

Rome, April 28.—The Giornale Italia today quotes Senor Estavs, Mexican minister to Italy, as saying that, if the United States makes an invasion of the settlement of the difficulty with Mexico the retirement of President Huerta, Mexico would rather die than acquiesce.

FREEDOM IS ENJOYED BY VERA CRUZ PEOPLE

Vera Cruz, April 28.—With the natives rejoicing in the freedom of the streets of the city after 7:30 o'clock tonight, the conduct of the Americans since landing and the orderly manner in which the American forces can rule is being made as inconspicuous as possible. The admiral believes that the natives here have been reassured and would not welcome a return of the Huerta regime. For the first time in ten years they are free of the spectacle of an army press gang gathering people wherever found and loading them into box cars.

ANTI-AMERICAN SPIRIT LESSENS IN MEXICO CITY

Washington, April 28.—Sentiment against Americans in Mexico City changed almost at the touch was learned today to what had taken place in Vera Cruz and the anti-American spirit is temporarily in abeyance, admiral Fletcher reported today. He said that he had received from there "reliable and personal information."

"The streets and theaters of Mexico City continued the dispatch, "are at present crowded and the status quo is being restored. Monday afternoon brought back no refugees to Vera Cruz from the interior. Lieutenant Fletcher, who was in charge of this train, was informed by the Mexican officials that the men in the vicinity have orders not to fire on our troops. They apply to keep the country free from bandits. He was also given to believe that all Americans and other foreigners, who wished to, could go out."

LOYALTY OF GEORGIANS CHEERING TO WILSON

Washington, April 28.—President Wilson was cheered today by a letter written by L. W. Summerlin of Willaocoochee, Ga., brother of one of the marines killed at Vera Cruz. Mr. Summerlin had been asked by a newspaper for an interview on the uselessness of mediation, in view of the lives already sacrificed.

"I believe President Wilson is right, and favor his policy," wrote Mr. Summerlin, "and Randolph has four brothers and a father who stand ready to make the same sacrifice. If we could not be loyal to our country and our president we would move out."

The president wrote to Mr. Summerlin, as follows:

"My Dear Mr. Summerlin: My attention has just been called to your correspondence with regard to the death of your brother at Vera Cruz. It has moved me very much. It rings so true and has such a genuine feeling of patriotism in it and the feeling which makes citizenship in this country so noble a thing.

"No one was more distressed than I at the loss of life at Vera Cruz, and I sympathize with you and your father and brothers most deeply. It is the more gratifying to find the noble spirit of mind of the loss, because I know what it must have cost you to lose a galiant brother like yours."

AMERICANS RELEASE MEXICAN PRISONERS

Washington, April 28.—Admiral Fletcher telegraphed the navy department late today that he had taken charge of San Juan d'Ulloa prison at Vera Cruz on account of the "frightful conditions" discovered there. He said that 325 prisoners who had not been accused of any misdemeanor or crime whatever had been arrested within the last two months in order to force them into the federal army and were confined in the prison.

Admiral Fletcher recommended that these be immediately released, and Secretary Daniels so ordered today by telegraph. There were confined, in addition, forty-three persons sentenced for crime and seventy-five awaiting trial. These will be held pending further investigation of their cases by American authorities.

AMERICANS TO HANDLE ALL VERA CRUZ MAILS

Galveston, Texas, April 28.—A United States postal agency is to be established at Vera Cruz to handle all mail for the army and navy, and those Americans and foreigners now at that port. H. M. Robinson, chief postal agent of New Orleans, reached here today with eleven assistants, who will aid in the operation of the United States postoffice at Vera Cruz. They sailed tomorrow on the steamer San Marcos.

The party has a full postal equipment, and will be prepared to handle all mail directed in care of the United States postal agency at Vera Cruz. Mr. Robinson said all mail should be addressed by way of Galveston unless the sender had information of a more direct sea route sailing from a nearby port to Vera Cruz.

OVER 1,000 REFUGEES ASHORE AT GALVESTON

Galveston, Texas, April 28.—More than a thousand American refugees stepped foot on their home shores today when the quarantine was lifted on the convoy Dixie, the collier Cyclops and the steamship Esperanza, which brought the refugees to port. By nightfall most of the refugees will have proceeded on their way home. Some plan to remain in Galveston and return to Mexico when the situation there permits.

The Esperanza was the first of the refugee ships to arrive today, and was soon followed by the Dixie. It was arranged to bring the 200 refugees on board the Cyclops to the bluejackets on barges. The immigration department provided the refugees with funds for their transportation home and other necessary expenses.

A heavy rain fell while the ships docked and it was a bedraggled crowd of refugees that filed down the gangways. Some there were that had fled from Mexico with only the clothes they wore, and these made preparations to outfit themselves at the local stores. Others were eager to get away from scenes of appearance, and take first train home. The health of the refugees continues good.

The refugees on the battleship Connecticut are expected to be out of quarantine within a day or two.

FEDERAL SOLDIERS ORDERED BY WILSON TO QUIET COLORADO

Gov. Ammons Admits He Is Helpless, and the President Sends U. S. Troops to the Strike District.

YOUNG ROCKEFELLER ATTACKS THE UNIONS

Says There Is Nothing to Arbitrate—Believed That Presence of U. S. Troops Will Stop Rioting.

Washington, April 28.—President Wilson today extended the protecting arm of the federal government to the state of Colorado, where, because of riots and pitched battles between mine guards and striking miners, Governor Ammons had found the state militia unable to cope with the situation and asked for help. The Colorado delegation in congress, mine owners and miners themselves joined in the request.

It was one of the rare occurrences in American history when a state found itself impotent to assert its authority, but the president, in a telegram to the Colorado governor, expressly stipulated that the federal troops would confine themselves to maintaining order only "until the state can reassert its authority and resume the enforcement thereof."

The president issued a proclamation ordering all persons engaged in domestic violence to disperse and "retire peaceably to their abodes," before April 30. Secretary Garrison, after a conference with the president, ordered the troops of the Fifth cavalry from Fort Leavenworth and two troops of the Twelfth cavalry from Port D. A. Russell, Wyoming, to Trinidad and Canon City, respectively.

Colorado members of congress say the mere presence of federal troops will prevent rioting. Efforts of the federal government to settle the strike thus far have failed. To this point the president made it clear that federal troops were being sent merely to preserve order, and not to interfere in the strike controversy itself.

State Must Settle Controversy.

"I shall not, by the use of the troops," the president wired Governor Ammons today, "or by any attempt at jurisdiction, inject the power of the federal government into the controversy which has produced the present situation. The settlement of that controversy falls strictly within the field of state power."

The president asked that the militia be withdrawn temporarily until the legislature, which will meet Monday, considers the situation and arranges for it to resume its police duties in the state.

The situation in Colorado occupied the president and his cabinet at a long meeting, after which the president's telegram to Governor Ammons and the formal proclamation calling on malcontents to disperse were made public.

The Colorado situation was brought to the attention of congress again, Representative Bryan, of Washington, introducing a bill declaring that a state of anarchy and insurrection against the United States exists in the state, and directing the president, as commander-in-chief of the army, to use federal troops to restore order, and that he acquire control of the stocks in mining companies affected. The measure would appropriate $10,000,000.

ROCKEFELLER ATTACKS UNIONS.

New York, April 28.—John D. Rockefeller, Jr., tonight issued a statement, defining the position he, as a director of the Colorado Fuel and Iron company, had taken regarding the Colorado mine strike, which has cost the lives of many men, women and children, and caused a large property loss.

The statement, which was given out after Mr. Rockefeller and his personal attorney, Starr J. Murphy, had worked over it all afternoon, reads:

"In view of the inaccurate accounts in the press regarding my interview with Congressman Foster, chairman of the congressional committee on mines and mining, I think it proper to make the following statement:

"In that interview, at which Starr J. Murphy, one of the directors of the Colorado Fuel and Iron company, was present, we pointed out that of the many coal companies in southern Colorado, we were interested solely and as minority stockholders in the Colorado Fuel and Iron company, which controls only about one-third of the output of that state. After a long and full discussion of the question in all its aspects, Dr. Foster was unable to make any suggestion which did not involve the unionizing of the mines or the submission of that question to arbitration. We stated to him that if employees of the Colorado Fuel and Iron company had any grievances, we felt sure that the officers of the company would be willing now, as they always have been in the past, to make every effort to adjust them satisfactorily. We showed the doctor that all of the points which are claimed to be at issue, with the exception of unionizing the camps, the Colorado Fuel and Iron company had granted voluntarily to its employees long before the strike was called or talked of."

Claiming that the company has granted the eight-hour day, check weighman and an increase of wages, the Rockefeller statement continues:

"In addition to the above, the only matter which has been raised by the strike is the unionizing of the company's camps. On this question of the open shop, namely, the right of every American citizen to work on terms satisfactory to himself without securing the consent of the union, I reiterated to Dr. Foster what I said in my examination before the committee on mines and mining in Washington a few weeks ago—that we regarded this as a matter of principle, which could not be arbitrated.

As to Organized Labor.

"In order to correct an impression which seems to have gained currency I desire to restate what was fully stated in the congressional examination, namely, our position with reference to organized labor. We do not question the right of any workmen to freely associate themselves in unions for the furtherance of their common and legitimate interests, but we do assert the equal right of an individual to work independently of a union if he so elects. We are contending against the right of unions to impose themselves on an industry by force, by assault and murder, and not against the right of men to organize for their mutual benefit.

"Are the labor unions, representing a small minority of the workers of the country, to be sustained in their disregard of the inalienable right of every American citizen to work without interference, whether he be a union or a non-union man? Surely the vast majority of American citizens will, without fear or favor, stand for even-handed justice under the constitution and equal rights for every citizen.

"But there is a final aspect of this grave matter which deserves more than all else the attention of the American public in this crisis; whether the Colorado Fuel and Iron company and the other operators have been wholly free from blame or not in the present controversy, the issue now to be decided is whether the state, or failing the state, the nation, shall make good the constitutional guarantee of law and order. At the present moment in Colorado funds are being openly raised and citizens are being armed with the avowed purpose of resisting the authorities of the state. Since that issue of resistance to constituted authority is raised, it is unthinkable that the Colorado Fuel and Iron company or any of the companies operating in the state, should be asked to yield its position on a preliminary and now extraneous matter of dispute, as the price of securing the withdrawal of forces armed to combat their own government."

Upton Sinclair, socialist author and lecturer, accompanied by Mrs. Sinclair and Mrs. Laura G. Gannon, wife of Joseph Gannon, organizer of the Western Federation of Miners, late today visited the offices of John D. Rockefeller, Jr., to protest against conditions in the Colorado mines.

Mr. Rockefeller declined to see any of the party, sending back word that he was too busy to receive them at that time.

ONE MAN KILLED AND TWO WOUNDED.

Boulder, Colo., April 28.—One dead and two slightly wounded are the known casualties in the fighting at the Hecla mine at Louisville, which began last night and continued today with a brief truce today, according to advices received at 6 o'clock.

Frank Steinhoff, a Bulgarian employed at the Hecla mine, was shot through the head early today.

During the truce all the women and children, with the men working in the mines, were removed to Boulder and Denver, leaving only the mine guards at the property.

The strikers are entrenched on every hill around the Hecla mine, prepared for a renewal of the attack, according to M. M. Rinn, attorney for the mine owners.

The county commissioners authorized the purchase of all the arms and ammunition necessary to equip the citizen volunteers. Word was received that Sheriff Cook of Larimer county, was coming to Boulder with automobiles gathering up all available arms and ammunition en route.

Plans were completed for sending strong detachments of citizen volunteers to Marshall to protect the Gorham mine and to guard the Industrial mine at Superior.

The train carrying General John Chase and 120 militiamen, which left Denver at 4 o'clock, was reported to have stopped at Webb, two miles from Louisville, and it was said a strong force of strikers was moving in that direction.

PROCLAMATION BY GOVERNOR.

Denver, Colo., April 28.—The issuance of a proclamation by Governor Ammons to "all law-abiding and peace loving citizens" of Colorado, to give their moral and active support to the effort to restore peace in the strike districts," called attention today to condition which was described as a "state of insurrection."

The proclamation said the state authorities had but one desire, "to restore and maintain order," and declared that until this was accomplished "there can be no machinery to secure justice in the courts."

The proclamation declared "there need be no further bloodshed if the strikers will quit and return to their homes. If they refuse, every available power will be brought to bear to compel them to do so."

The proclamation concludes:

"Peace officers throughout the state are urged to arrest and hold for conspiracy every man caught collecting arms or ammunition to ship to any part of the state, or calling for volunteers or organizing companies of men to be used against the constituted authorities of the state."

ONE DEAD; THREE WOUNDED.

Walsenburg, Colo., April 28.—One dead, one probably fatally wounded, two slightly wounded, was the toll of fighting here between strikers and mine guards in this vicinity which began yesterday afternoon at the McNally mine and during the night spread to the Walsen-Robinson mine on the edge of the town. The firing has ceased.

The dead:

GEORGE BOCK, striker.

The wounded:

Mike Lenzini, storekeeper, shot in stomach, probably die.

Margaret Gregory, shot in arms.

William Peet, striker, shot in leg.

Sheriff Jefferson Farr had not verified two to four fatalities reported from various sources. Two strikers were reported wounded.

The buildings at the McNally mine one mile west, where the fighting started yesterday, virtually were destroyed by fire during the night, according to advices.

It was stated here that the strikers had sent an ultimatum to the manager of the Oak View mine near La Veta, demanding the surrender of that property. It was said that the demands had been refused and that an attack was expected momentarily.

HOWARD MADE FIGHT FOR LITTLE CHILDREN

Atlanta Congressman Succeeded in Getting Appropriation Largely Increased.

By John Corrigan, Jr.

Washington, April 28.—(Special.)—Representative William Schley Howard, of Georgia, was one of the most active advocates of the children's bureau appropriation which the house passed last week.

Representative Fitzgerald, chairman of the appropriations committee, favored $25,640, but Mr. Howard fought for an increase to $162,640, the amount asked for by Miss Julia Lathrop, head of the bureau. The house overturned the appropriations committee and gave the increase.

Some Ugly Statistics.

The great opportunity before the children's bureau in overcoming the frightful mortality among babies and young children was stressed by the speakers.

Some ugly statistics were given by Representative Victor Murdock. He said:

"Out of every 1,000 births in this country, 159 of the children die before they reach the age of 1 year. Out of every thousand only 14 children die between the ages of 1 and 5 years. Wherever a locality or community has a high infant mortality of children under 1 year of age, that community also has a high infant mortality of children between the ages of 1 and 5 years. Therefore, the matter of infant mortality, dealing with the death of infants under 1 year of age, is of the highest importance to the nation. Someone has said, and said truthfully, that infant mortality is the most sensitive index of social welfare that we have."

Howard for Amendment.

Representative Howard said:

"I heartily approve of the amendment. I hope that any of us who favor this amendment on this side of the aisle under the condition in existence in the children's bureau will not be accused by anybody of any unholy alliance with the 'looters of the treasury.' This bureau can do more good for the amount expended than any other bureau in any department of this government. It is stated authoritatively that out of 300,000 infants born in the United States annually 150,000 little souls enter into eternity within the age of 1 year because of preventable disease. If those 150,000 infants are not worth the effort and expenditure of the small sum asked for the maintenance of this bureau, then none of our appropriations are worthy of consideration.

United States Behind.

"On vital statistics of the social conditions in the United States we are far behind any civilized country on earth, and this bureau will do one good that I know has not been suggested here so far during this debate. That is this: If any social conditions exist in this country in the states where the federal government seeks to enter, of course with the permission of the state, the probability is that the very presence of the federal government will stir those states, from the standpoint of pride, to remedy any conditions they might fear would be exposed by this bureau and criticised by the world. (Applause.) That is one good that it will do, and that good will overshadow the meager appropriation asked for by the amendment of the gentleman from Iowa.

"I hope the amendment offered by the gentleman from Iowa will be agreed to, so this bureau will not be hampered in the beneficent work it is so efficiently doing and which will redound to the betterment of conditions of thousands of innocent little babes yet unborn."

A Hazardous Occupation.

(From Woman's Home Companion.)

The estimate of the federal census authorities is that we lose at least 300,000 babies every year before they have reached the age of one year—more than a third of them before they are a month old. Miss Lathrop goes on in part as follows:

"Dr. J. W. Schereschewsky, of the public health service, in a recent address said: 'The mere business of being a baby must be classified as an extra hazardous occupation, since the perils which ever encompass human existence are never so bitterly emphasized as in the first year of life.'

"The government census figures show that in the last ten years more than 2,500,000 of the children born in this country died before reaching the age of one year. This, in terms of total population, is as if Chicago, the second city of the United States, were to be wiped out of existence every ten years, not a single life being saved. It means the annihilation, each decade, of a population as large as that of the state of New Jersey. To state the same fact differently, the deaths of infants under one year in this country during 1913 was nearly equal to the combined population of Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah and Nevada."

Radium for Race Horses.

(From The New York Press.)

A radium treatment for race horses has been tried with success on the crack French steeplechaser, Lutteur. After being crippled for nearly two years Lutteur is now as sound as ever, owing to the new treatment, which, it is stated, will supersede firing and blistering. Though it is not yet certain whether Lutteur's cure will stand the rigorous preparation necessary for a long race, it has been proved successful.

Getting Ready for 1992.

In Chicago, one of our most hustling little business places, they are still methodically settling up the affairs of the late world's fair, which many of Collier's younger readers will not recall. Another dividend of 1 per cent or thereabouts is ready for the stockholders, and some official with a good memory has recalled the fact that at the close of the exposition a sum of money—$25,000 or so—was left in charge of the president of the board of women managers. The attention of Mrs. Potter Palmer, the said president, having been called to this, she has recalled the fact herself and has discovered that the fund has now swelled to over $60,000. Preliminary discussions regarding the disposal of this monetary debris are now going on.

As the five hundredth anniversary of the discovery of America is now only seventy-eight years away, it might be a good plan to leave the money right where it is and let it continue drawing interest. Chicago will undoubtedly hold another world's fair in 1992, and this is none too early to begin preparations.

The Rainbow (Copyrighted) Dress

It is as new as the morning.

And still its vogue is thoroughly established—because of its wonderful attractiveness, its distinct individuality. It is smart to an unusual degree—and as a woman remarked as she tried one on "It is such a **WEARABLE** dress."

Of Crepe de Chine—splendid quality—the bodice and a deep lily pointed flounce or over skirt are accordion plaited, in the shade of the dress but for a very smart, woven Roman stripe above the waist line and at the edge of the flounce. Half length sleeves lace edged, low collar.

It may be had in navy, Copenhagen, royal, wistaria, bronze green, black and black and white.

But it is hardly fair to **DETAIL** such a dress. Its charm lies in seeing it as it is.

We have exclusive selling rights for it in Atlanta. It is $25.00.

The Story of Richard Strauss' Opera DER ROSENKAVALIER (The Rose Bearer)

The action of the opera takes place in Vienna, during the early years of the reign of Maria Theresa.

First Act—The chamber of Princess Von Werdenberg. The Princess (Della Baroni) and Octavian (Margarete Ober), a young noble, in the midst of an impassioned love scene are disturbed by what they think is the Prince Von Werdenberg unexpectedly returning from a hunting trip. Octavian, to conceal himself, dons the dress of a lady's maid.

This fears are allayed, however, when the Baron Ochs (Otto Goritz), a noisy old rake, enters to beg the assistance of the Princess in the prosecution of his suit for the hand of Sophia Faninal (Anna Case). But he immediately begins to make love to Octavian, who is now disguised as a maid, and invites him (her) to sup with him—this while the Princess is having her morning interview with her milliner, hairdresser and others.

After the Baron's departure, the Princess requests Octavian to bear the silver rose to Sophia for the Baron.

The Second Act—A room in the home of Von Faninal (Robert Leonherdt), a wealthy merchant, the father of Sophia.

Sophia receives the rose from Octavian, now in man's attire. They fall in love with each other. Later the Baron enters to close the marriage contract. But much against her father's wishes, who would connect his name with an aristocratic house, Sophia vows she will never marry the Baron.

Octavian now sets about to win Sophia for himself.

In the third act Octavian, again disguised as a maid, keeps his appointment with the Baron—at an inn. He has arranged many tricks to be played on the old man, who is accused and arrested. In his confused explanations, the Baron is rightfully disgraced; Sophia denounces him and the opera ends happily when Octavian reveals himself and wins the hand of Sophia.

Combining these two with high-grade workmanship, careful attention, honest dealings, and the grinding of the greater portion of prescriptions written for glasses by our better oculists, has fully demonstrated the fact that there is something indescribable about the way in which we conduct our business that few opticians have been able to understand. Mitchell Sixes
Products of Long Experience

This company has been building popular priced sixes longer than any other concern in this country. Hence the sixes we offer are the product of many years of experience, and in no sense experiments.

The *Mitchell Little Six* which was known as the "Baby Six" in 1912, is, in our opinion, the profoundly logical investment in the automobile market. It is not only the sensible compromise between big and little power and passenger capacity, but it has everything that any high-priced car can offer you.

It has quality that insures long life. It has the style of beauty that the exacting mind demands. It has as much speed and power as any person can desire. It will hold its place in any company and look classy and work perfectly for several years to come. Its equipment is complete and details thereof sterling in character. The price $1,895, brings this smart car to you ready for instant use. There is nothing left for you to buy—no extras—no appurtenances.

The *Mitchell Big Six* is the biggest and best car at the price that has ever been produced. It is built along the same lines as the Little Six save that it has 144-inch wheel base, somewhat larger tires, greater passenger capacity. Yet the quality of the two are identical. The equipment is precisely the same—the outward beauty similar. For a big family car the Big Six has no equal in America and there is nothing as good for less than $3,500 or $4,000. The price of the Mitchell Big Six is only $2,350.

The *Mitchell Four* is intended for those who feel that they cannot afford either of the Sixes. It is the only four-cylinder car we make. We build it to meet the demand of those persons who still like a four-cylinder car of class at a popular price. It has the same equipment as the other two cars and sells for $1,595. We want you to look this car over minutely and then ask yourself if there is a four-cylinder car at anywhere near the price that can compare with this one in any detail.

Here is the Equipment for all the Mitchell Models Which is Included in the Prices as Given

Electric self-starter and generator—electric lights—electric horn—electric magnetic exploring lamp—mohair top and dust cover—Timpkin valves—fifty quick-action side curtains—quick-action two-piece rain vision windshield—demountable rims with one extra—Speedometer—double extra tire carrier—Rear tow holders—license plate bracket—pump, jack and complete set of first-class tools.

NEW YORK FINANCIERS REACH HERE NEXT WEEK

Will Inspect Georgia Railway and Power Company Property.

Following the issuance of the last annual statement of the Georgia Railway and Power Company, showing the gross earnings of the corporation, reports became current that a bond issue was contemplated for the purpose of making extensive improvements in Atlanta and at Tallulah Falls. President Preston S. Arkwright vigorously denied that a bond issue had been determined upon by the board of directors.

Next Monday morning a party of New York bankers, members of the firm of J. P. Morgan & Co., of New York, and Drexel & Co., of Philadelphia, will be in Atlanta. Reservations have been made for the party at the Georgian Terrace.

While officials of the Georgia Railway and Power company are reticent regarding the visit of the bankers, it was definitely learned Tuesday afternoon that the party will inspect the property of the corporation in Atlanta and will also go to Tallulah Falls, where the company recently completed its water power plant. It is understood that the party will remain in Atlanta two days, devoting one to the inspection of the hydro-electric plant.

President Arkwright declared Tuesday that he had not been informed of the coming of the New York bankers.

"See Mr. Atkinson," he suggested. Mr. Atkinson is chairman of the board of directors. He asked to be excused when approached.

COST OF SCHOOL BOOKS IS LESS IN GEORGIA

The School Book Commission Adopts Majority Report Favoring the Present Plan.

The commission created by the last legislature to investigate the proposition of the state's publishing its own school books, as provided in the pending McCrory bill, adjourned after a more or less turbulent session Tuesday with the adoption of a majority report that the cost of Georgia's school books under the present system is considerably less than in the forty-seven other states, and that the Ontario plan of school book publication do not be adopted; the drawing of a minority report by State Superintendent of Education M. L. Brittain that the plan of the state's publishing its own books be tried out, and a second minority report by Representative R. C. McCrory, father of the bill, that the system of publication recommended in his bill be adopted outright.

By a rising vote resolutions were adopted thanking State Superintendent of Education Brittain, as chairman, for his courtesy and his impartiality in his rulings and for his assistance in drawing the report.

The Majority Report.

The summary of the majority report, adopted by all except Mr. McCrory, is as follows:

"Summarizing for your convenience, therefore, our answers to the questions which we were asked by you to secure are as follows:

"1. Compared with the prices paid for similar books in other states in this country, the cost in Georgia is not only reasonable, but actually considerably less than the average paid in the other forty-seven commonwealths of this union.

"2. The California plan, which involves the purchase and equipment of a printing plant, managed by state officials, for the purpose of printing state school books, does not appear to be desirable for Georgia.

3. We would not recommend the publication of our school texts by the Ontario plan of having manuscripts prepared at the state department of education and let out by contract."

Minority Report.

To the foregoing report Superintendent Brittain added the following summarized minority report.

"There are certain books, such as geographies, for instance, that require the services of experts of nation-wide skill and ability. We do believe, however, from the evidence before us, that the state should have the right to test this plan, and we recommend:

"1. That the state department of education be authorized, with any necessary assistance, by legislation, to prepare the manuscript for a Georgia civics and to secure its publication by the lowest satisfactory bidder; and

"2. That authority be given to lease the plates of a publisher with whom satisfactory arrangements can be made, and to test the cost and distribution of another text, such as may be selected by the state department of education, in order to find out by actual investigation whether or not it is advisable for the state to publish books by either or both of these methods."

FAIR WEATHER FOR STILL ANOTHER DAY PROMISED ATLANTA

Although the general rain area persists in the central valley with large amount of rain from Texas north to Minnesota, it appears to be advancing eastward very slowly. The chances are, therefore, not so favorable for rain at Atlanta and today is very likely to be fair. The winds will continue from the south and the weather will remain warm for another day. The temperature at Atlanta Tuesday morning was 76 degrees, at St. Louis 52 degrees. A wave of somewhat cooler weather should be experienced Thursday or Friday.

BANQUET IS ENJOYED BY NEW MEDICAL FRAT

Following the institution of Alpha Tau chapter of the Alpha Kappa Kappa medical fraternity at the Atlanta Medical college Friday afternoon, the members of the new charter attended a banquet at the Capital City club Saturday night.

The new chapter was instituted by Dr. George Cook, of Concord, N. H., grand primarius of the fraternity.

The visiting members at the instituting ceremonies were as follows:

J. W. Papes and E. L. Block, of Pal chapter; L. E. Hastings, of Epsilon chapter—these three being members of the faculty of the school; W. F. Bagley, of Alpha Nu chapter; C. C. Fishburne and N. L. Kirkland, of Alpha Gamma chapter.

Membership was conferred on the following men: D. T. Henderson, J. W. Payne, W. W. Griffith, J. E. Powell, W. D. Jordan, J. T. McGee, H. O. Brown, B. Johns, R. L. Carter, J. C. Morgan, R. C. Maddox, J. H. Mull, W. A. Coleman and F. Q. Richards.

The following officers were elected: President, James W. Papes, chapter primarius; D. P. Henderson, president; J. W. Payne, vice president; H. O. Brown, recording secretary; J. P. McGee, corresponding secretary; B. Johns, treasurer; R. L. Cater, Jr., historian; J. E. Powell, marshal; R. C. Maddox, warden, and J. O. Morgan, chaplain.

Women Working For Hospital

Mrs. Hugh M. Willet has been added to the list of Atlanta women working for the greater hospital movement. Mrs. Willet returned from a visit to New York early in the week, visited the hospital and at once began her part on the campaign. Mrs. Willet was formerly president of the Georgia Federation of Women's clubs; she knows thoroughly the organized effort of women, in the state as well as the city.

She has reached many of these with the message of the bond issue, and reports that in no case has she encountered anything but enthusiastic support of the proposed measures, which will insure the greater hospital.

Mrs. Lamar's Interest.

Mrs. Walter D. Lamar, of Macon, Ga., who is a visitor in the city, expresses great interest in the movement of the greater hospital. She is chairman of the hospital committee of the Georgia Federation of Women's clubs, which proposes hospitals being built in connection with the state educational institutions. "I believe the greater hospital proposed for Atlanta will be helpful to the entire state, and I am delighted to learn of the department of research to be established in connection with it," said Mrs. Lamar. "I believe that we would have better health conditions, especially through rural Georgia, if people were better educated in the matter of the care of the sick, and how to prevent the diseases of which we have too many in our section where none should prevail. The establishment of the greater hospital in the state would broaden facilities for a more general education of people in public health work."

OFFICERS CHOSEN BY PROGRESSIVES; DELEGATES NAMED

At a mass meeting of the Fulton county progressives, held at their headquarters in the McKenzie building, Monday night, the following were elected as delegates and alternates to the state convention to be held here on the 12th of next month.

The convention also elected permanent officers, as follows: Bernard Suttler, chairman; Sam J. Jones, vice chairman; M. R. Duffy, secretary.

Wednesday Closing Meets Approval of the Downtown Merchants

The committee from the Retail Grocers' association which is sounding the downtown merchants on the Wednesday half-holiday question reported Tuesday that all but a few of the merchants had been interviewed, and that general sentiment seemed overwhelmingly in favor of the change.

Dissatisfaction with Saturday as the retail half-holiday has been existent for some time among both workers and retailers. Workers complain that as the majority of them are paid on Saturday, they should be given an opportunity for shopping and settling up their accounts. This they are unable to do under the present system of closing the retail stores during the summer on Saturday afternoon. The retailers find that the Saturday closing plan crams into an hour or two shopping which should be spread out over an afternoon.

Wednesday has been chosen as the best alternative for two reasons: Because it makes a break for the workers in the exact middle of the week, and because it is the day on which retail business is ordinarily lightest.

If Wednesday is finally chosen as the day, the new plan will go into effect June 10.

JOHN YARBROUGH FREED BY BIBB CO. GRAND JURY

No Bill Returned to Charge of Giving Girl Poisoned Banana.

Macon, Ga., April 28.—(Special.)—The Bibb county grand jury today returned a "no bill" against John W. Yarbrough, the hack line proprietor, who has been in jail under a charge of assault with intent to murder in connection with the alleged giving to Miss Irene Herndon, of a poisoned banana.

Since his arrest Yarbrough has been in jail, unable to make the bond required by Judge Daly, in the municipal court.

Shortly after the grand jury refused to indict him Yarbrough was released and his attorney, W. D. McNeil, announced that he would probably enter suit against Raymond Oglesby, an alleged Pinkerton detective, for false arrest and malicious slander.

It was charged that Yarbrough had given Miss Herndon, a 16-year-old girl, a banana containing bichloride of mercury in order to keep her from telling what it was claimed she knew about a recent fire which destroyed Yarbrough's house and on which he was endeavoring to collect $1,200 insurance. Yarbrough was recently given a commitment hearing on the charge of arson, but the case was withdrawn by State Fire Marshal Joyner. So far, the grand jury has not reported on the arson charge.

Weds Sister-in-Law.

Macon, Ga., April 28.—(Special.)—Dr. A. F. Kemp, a prominent Macon physician, was married at Barnesville last night, to his sister-in-law, Miss Mary Minhinnette.

Accompanied by a party of friends the couple motored to Barnesville and went to the home of Mr. and Mrs. Sam Jones. Up to that time they had told no one of their intention to wed and they kept their plans secret until the minister, Rev. L. M. Ledbetter, arrived at the house. Then the announcement was made and the ceremony performed.

Since the death of Dr. Kemp's first wife, Miss Minhinnette had been his housekeeper. She is the daughter of F. J. Minhinnette.

Steals Savings Bank.

Macon, Ga., April 28.—(Special.)—An unknown burglar walked into the home of J. G. Cline, 516 Orange street, last night while the family was at the supper table, and entering a bedroom helped himself to a savings bank containing $22. Nothing else in the room was disturbed and this fact leads the police to believe that someone familiar with the premises committed the theft.

PAPER IS PUBLISHED BY REFORMATORY BOYS

Milledgeville, Ga., April 28.—(Special.)—"The Future Citizen" is the name of a little four-paged paper which made its first appearance a few days ago here. It is printed and published by the superintendent and boys of the Georgia State Reformatory in a print shop which was recently established in connection with that institution. Its motto is "A paper with a purpose, printed by boys doing the best they can." The subscription price is $1.00 a year. TOMATO CLUB FORMED IN HARALSON COUNTY

Tallapoosa, Ga., April 28.—(Special.) The Haralson County Tomato club was organized at Steadman yesterday, and will at once get down to the work of growing tomatoes. Forty-seven members compose the club, and they propose to can $10,000 worth of tomatoes this year. C. U. Allen was elected president; Miss Mary Stone, secretary; Johnnie Barrow, L. E. Chandler, J. W. Pope, G. F. Dodson and V. J. Roberts, board of directors.

Crop conditions in this section were never better. The cotton area is about planted, the corn planting is well under way, prospects of fine fruit crop are excellent and the grain crops will produce heavy yields.

BRIAR IN FINGER CAUSE OF W. E. HARPER'S DEATH

Mount Airy, Ga., April 28.—(Special.) William E. Harper died Wednesday evening at his home near Mount Airy. While doing some clearing on the farm a briar caught and lodged in the little finger of his left hand and blood poison resulted. For five days the most excruciating pain followed the accident, when death came very peacefully.

Mr. Harper was a highly esteemed citizen. He is survived by three sons, Ernest, Garland and Meredith; three daughters, Mrs. Murrell Bogg, of Demorest; Myrtle and Lelia Harper; one brother, Harvey C. Harper, of Demorest; Mrs. A. M. Askew and Mrs. J. J. Francis, of Atlanta, and Mrs. Ada Lilienthal, of Texas. Funeral exercises were held at Camp Creek Baptist church.

B. P. AXSON NOW HEADS MASON GRAND COUNCIL

W. A. Sims, of Atlanta, Is Elected Deputy Grand Master.

Macon, Ga., April 28.—(Special.)—Macon today, for the first time in many weeks, put on her "glad rags" and extended her hand of welcome to another convention gathering, the grand council, Royal and Select Masters, and tomorrow she will extend welcome to still another body, the grand chapter, Royal Arch Masons. Fully 100 delegates attended the meeting of the grand council today, and fully 400 are expected for the grand chapter meeting tomorrow.

The convention sessions are being held at the Hotel Dempsey, and a wide range of subjects as affecting the interests of the two orders in Georgia will be considered. These two branches are the business end of the Masonic order, and meet in Macon every spring.

R. P. Axson, of Savannah, was elected grand master of the grand council at the meeting this afternoon, succeeding Joseph P. Bowden, of Adairsville.

Other officers elected were: W. A. Sims, deputy grand master, Atlanta; M. J. Nevin, grand conductor of work, Augusta; W. A. Wolihin, grand recorder and secretary, Macon; J. A. Walton, grand captain of guard, Columbus; Max Meyerhardt, grand marshal, Rome; Charles L. Bass, grand conductor, Atlanta; M. A. Weir, grand steward, Macon.

Nearly all of the Masons in attendance at the grand council meeting will remain over for the sessions of the grand chapter, Royal Arch Masons, which will be held tomorrow and Thursday. Joseph P. Bowden is grand high priest of the grand chapter and will preside over the sessions. The meetings of the two bodies are simply for the transaction of routine business.

Bulloch Court Adjourned.

Statesboro, Ga., April 28.—(Special.) Judge B. T. Rawlings opened and adjourned superior court yesterday morning and for the first time in many years there will be no April term of the tribunal. This is due to the torn up condition of the courthouse, which is undergoing improvements, and a petition sent up to Judge Rawlings by the Statesboro bar. A majority of members of the bar are candidates for office in the primary to be held May 7, and they did not want to miss the opportunity of "feeling the boys" during the last days of the campaign.

Taxpayers of Athens Aroused by Threat to Print Property Returns

Athens, Ga., April 28.—(Special.)—There was as much excitement on the streets in gathered talking groups in Athens this morning over a simple announcement from a member of the city council as if the war had broken out afresh in Mexico. The announcement was that the mayor and city finance committee had definitely decided to publish in a few days in both the daily papers a full list of all the taxpayers and the amounts they give in for taxation in their personal property returns.

"I know men," said he, "who are giving in their household and kitchen furniture, diamonds and jewelry, automobiles and live stock, books, pictures, cash, notes, and everything like that, at one-tenth, some one-twentieth of their market value. And they are kicking because the city does not have money to spend for improvements they want made or because it does not reduce the tax rate from $1.25 to $1. We are simply going to show the city why the treasury does not overflow with tax money."

ATHENS CLUBWOMEN ASK MEDIATION IN MEXICO

Athens, Ga., April 28.—(Special.)—The women's clubs of Athens at a great meeting in the city hall this afternoon followed a suggestion received by wire from George Foster Peabody and sent a telegram to President Wilson commending his course in management of the Mexican affairs which will settle the trouble by mediation. The message was signed by Mrs. John Z. Hoke, president, and Mrs. M. A. Lipscomb, former president of the Georgia federation.

ELECTRIC BUTTONS WERE UNDER BRYAN AND BELL SOUNDED

Washington, April 28.—While Secretary Bryan was receiving a number of callers today bells in the state department began to ring everywhere, followed by a quick rush of clerks and messengers to the secretary's office. Arriving they looked askance at Mr. Bryan. Finally some one discovered that the secretary was sitting on a row of electric buttons along the edge of his desk.

DECOYED TO STATION, ARTIST IS ARRESTED

Savannah, Ga., April 28.—(Special.)—Decoyed to the police station, Max Green, an artist who formerly lived in New York, was arrested this morning upon information from the New York police that he had abandoned several minor children.

A detective has been trailing Green for some time. He was told at his home last night that the painter was out of the city.

A message was left asking him to call at a certain number on Oglethorpe avenue on business. That number happened to be the police station.

THE CONSTITUTION is on sale in New York city by 2 p. m. the day after issue. It can be had: Hotaling's Newsstands, Broadway and Forty-second street (Times building corner), Thirty-eighth street and Broadway and Twenty-ninth street and Broadway.

THE BLOOD HUNTERS.

The Constitution publishes from its Washington correspondent a blistering and accurate arraignment of the professional war-makers, the war bund that is striving for revenue only to plunge this country into an unprofitable and probably unnecessary war with Mexico.

We commend the facts in this story to every thoughtful American.

These men who play upon murderous and low prejudice to provoke war are for it at any price.

And what a price!

Thousands of splendid young lives snuffed out perhaps uselessly.

Thousands of homes desolated.

Millions—perhaps millions—of the people's money spent in operations and pensions.

All for what?

To satisfy a few private bloodthirsty personal ambitions.

To satisfy the personal and reckless greed of a few Mexican land-owners who knew what they were about when they went into Mexico, and at what risk.

This precious little conspiring coterie, abetted by convenient publicity alles, want their property enhanced by annexation.

It matters not to them that thousands of lives, billions of dollars pay the price. They saddle the nation's credit, the nation's lives to their selfish personal influences.

This country does not want war with Mexico, if it can honorably be avoided.

We have nothing to gain there.

Our obligation, under the Monroe doctrine, is purely the moral obligation of preserving order, restoring stable government.

We could not, in two or three centuries, digest into our fabric the clashing Mexican ingredients.

We have now more unsolvable race and political problems on our hands than we can handle.

This matters nothing to the war bund.

They know the country is not for war, if we can settle the situation peaceably and honorably.

They intend to kindle a war spirit if they have to resort to every "frame-up" in the catalogue of deception.

The game is a despicable one.

It knows no limits. The Willacoochee incident, to which our correspondent refers, is typical.

A Georgia father, whose son is killed, is asked by telegraph if mediation is not an "outrage"—is urged to tell congress that the blood of other men's sons should be poured out to salve the national "honor."

This splendid old Georgian penetrates the travesty.

He resents the attempt to seduce his patriotism as an insult. He offers his life and the lives of his other sons to his country.

But he does not connive at bloody and mercenary war plots, at seditious criticism of an effort to get this country honorably out of a complicated situation.

No wonder Washington is agog over the incident.

No wonder Washington sees the game of the war bund.

If we have war with Mexico it will be because honor and obligation takes us there. And we will get out as soon as we can, the professional war-makers for revenue only to the contrary notwithstanding. We do not need Mexico and the jingoes will not succeed in their desperate effort to force it upon this country.

THE CITY THAT'S CLEAN.

While Atlanta is in the throes of a "clean-up and paint-up" crusade, with an eye to making the city presentable to the Shriners, the following editorial extract from The Philadelphia North American is pertinent:

A clean city means more business in the shops and stores and more money in bank. It means fewer inmates in hospitals, asylums and prisons—yes, in prisons, for dirt breeds crime as well as disease—and therefore more money for needed public improvements, such as parks, playgrounds, art galleries and schools.

It means more prosperity in mills and factories and more opportunities for work. Naturally, all these favorable conditions center their benefits in the homes of the people. A clean city means happier and better-provided homes, stronger children and more cash and comfort.

All this is not to be gained by waking up for a week and then going to sleep again. To clean up is only the first step forward. To keep clean is the way to reach the goal!

One of the most significant sentiments of the foregoing extract is contained in the last paragraph.

"Staying awake" is one of the main things in a crusade of this nature.

A clean city is a healthy city and an efficient city.

But spasmodic cleanliness makes a mockery only of the true scope of any health or sanitary movement.

It is imperative that Atlanta clean up and paint up for the Shriners.

It is more imperative that the city stay clean for its own sake, and for the sake of posterity.

Fortunately, the matter of cleanliness is largely a habit.

Once Atlanta forms it thoroughly it is apt to persist.

To both the temporary and permanent ends it will be well if every civic influence in the city exerted all the persuasion at its command.

The game is distinctly worth the candle.

LAKE PARKS TO PEOPLE.

David Houston, secretary of agriculture, has written the Atlanta Chamber of Commerce indorsing its plan for a mountain park in the forest reservation the government is now acquiring in the Appalachians.

It is particularly fortunate that the original idea of a single park should have evolved to include a series of parks.

With the long strip of federal-owned territory, stretching from the foothills of the Blue Ridge in north Georgia to the White mountains in New England, there is no reason why the government should not construct and maintain several national parks. There is really no sound reason why a park should not be maintained in each state through which the reservation winds its way.

It is true that the original purpose of the reservation is to be for conservation. But conservation is in full effect in all the huge governmental parks in the far west, and it interferes in no wise with the scenic beauties and the tourist attractions of these great playgrounds of the people.

There are points in north Georgia and North Carolina qualified to bid with the Swiss Alps for picturesqueness. And certainly neither the Alps nor any other mountain system, even in our own country, can exceed the Appalachians from the point of view of health.

Thousands who can never make the trip to Yellowstone Park, the Grand Canyon, Yosemite or the Glacier National can visit north Georgia and North Carolina and Virginia and Pennsylvania and New England. If the government cannot take the people to the parks, it can take the parks to the people.

THE EMPLOYED.

The new federal commission on industrial relations toward the end of minimizing chronic unemployment is to recommend something in the nature of a national employment bureau with jurisdiction over interstate employment agencies, and with authority to collect data concerning need for workmen in all places.

Unemployment is not an unusual thing in this country. It is not dependent upon industrial depression. Frequently there is the paradoxical spectacle of men unemployed in the high tide of boom times.

Many students explain this fact on the ground of faulty distribution of labor, and faulty distribution of labor rises out of inadequate information as to where labor is needed. We cannot too soon have the truth about this situation.

There always will be an element of unemployment in this country that is unavoidable. But where unemployment can be traced to economic causes that are susceptible to remedy, that remedy should be quickly applied.

THE SOUTH AWAKES.

The Houston (Tex.) Post, in reproducing The Constitution's cartoon illustrating the manner in which germs cross the race line, strongly commended both the cartoon and the editorial that accompanied it.

The entire south is awakening to the peril of negro disease.

The question of sanitation is one of the biggest issues underlying the negro problem in the southern states. It ranks with crime and vagrancy and the two obviously are closely interconnected.

If every county in the south recognized the menace to its white population from disease among its negro contingent, the disease and death rates would take a big slump, the negro's inefficiency would be lessened, vice and immorality and idleness would diminish and there would be a tremendous improvement at every point where the races cross, and universally among the negro race.

Think of trying to put a dignified navy on a little old water wagon.

What a relief it will be to John Lind to find his lost voice and to feel free to give it exercise.

A Dixie War Note.

The new war-drums
through the land
they're beatin',
Red hot times, and they're
still a-heatin',
"March away, away,"
Say the boys of Dixie
Land.

If it's nothin' else but
fightin',
"Hooray!" we say,
They'll heat 'em hot
With shell and shot—
The fightin' boys of Dixie,
"Hooray!" we say,
While bands are playin' "Dixie."

The world will wake, the world will wonder
If Georgia's guns from her big ship thunder,
"Blaze away, away!"
Sing the big guns of the "Georgia."

Oh, they'll hear them guns a-roarin',
"Hooray!" we say,
Like thunder 'round,
From cloud to cloud
They'll hear the guns of Dixie,
"Hooray!" we say,
While bands are playin' "Dixie."

Billville in Camp.

"This time it's a fishin' camp," says the editor of the town paper, "and we struck it quite accidental. While in Atlanta the other day we met our old friend, Deacon Morgan Bell, Captain Charles Smith and Brother Hearn, who took us in their auto to their fish-camp on the banks of the Chattahoochee, and of all the juicy 'channel-cat' we ever tasted they had 'em, in sufficient quantity to feed a multitude and have enough left over to keep Coxey's army from perishing of hunger on the way to Washington! And there was cornbread like our mothers used to make; coffee that made you sit up and take notice, white shaded, icy springs cooled great cans of buttermilk!

"We spent three joyous self-satisfying days and nights with them, and felt that it was good to be living in this great, green world. Life drifted into sleep, to the music of mockingbirds, singing in the flower-scented Dark; and our dreams came true—for breakfast was ready the minute the Sun said, 'Good Morning,' and all as free as the winds that waved the blossoms! We said grace with a will, but with that savory breakfast before us, we cut it mighty short! There's no high cost of living in that springtime camp on the banks of the golden Chattahoochee"

War Shadows.

Of the discordant war note in the music of Spring the Bentztown Bard sings:

"It is so hard to understand
These shadows gathering o'er the land,
These hatreds come
The bugle's call, the roll of drum,
The rally of the eager men,
The ships cleared for strife again,
The gathering troops, the swinging lines,
The thunder of occasions when
Above the brave old banner shines
The eagle of untroubled eye,
And God, with all that love divines,
Calm on His throne in yonder sky."

The Trouble.

"There's a call for hands to till the fields," says a Georgia editor, "but many mistake the braying of a hungry mule in the furrow for a call to office."

A Parody.

"We don't want to fight,
But, by jingo! if we do,"
We've got the ships, and dollars
With the Eagle on 'em too!
Hurrah!

A Song of Changes.

World is rushin' on so—truth it is to speak,
Hardly time in a country when you've been away a week!
Returnin' to the old place, new things on every hand,
You're almost like a stranger in a strange, strange land!

World rushin' on
From darkest night to dawn,
New times are with you, old times are gone!

Wonder where we're goin' to, flyin' on so fast,
World is like a feather, a-whirlin' in the blast!
Yer home-town, it leaves you; it's hard to find the place
Where's first you saw the starshine, looked Morning in the face.

World rushin' on,
Whizzin' down the dawn,
New times are with you, old times are gone!

Fair Notice.

Says The Abilene Reflector: "We serve notice right here that although we may learn to spell the names of the Mexican towns and public men, we do not intend to try to pronounce them. This paper merely prints the news—it does not agree to read the paper to the subscribers."

The Lively Jingle.

They'll have a lively jingle—
The merry Maytime rhymes,
But better is the jingle
Of the dollars and the dimes.

It beats—these high-price times,
The sweetest steeple-chimes;
Oh, merrier is the jingle
Of the dollars and the dimes!

The birds in blossoms singing—
It beats 'em by a score,
And when the dollar's ringing
The world hikes to the door.

Oh, fair and happy times
Of money's silver chimes!
The merry—merry jingle
Of the dollars and the dimes!

DISTRACTING NOISES

FAMOUS STREETS

By GEORGE FITCH,
Author of "At Good Old Siwash."

Fifth avenue is a narrow slit through New York city walled on either side with several hundred million dollars worth of buildings. It has more good architecture than any other street in America, both in said buildings and in the clothes which adorn its sidewalks.

Once Fifth avenue was a fine residence street and the abode of the New York millionaire. From Washington Square, far downtown to Forty-second street, it was lined with brown stone mansions and the man who lived on this street could buy anything and have it charged. Then business crept in and began chasing the millionaires north. For years the chase has continued. Each year the wave of skyscrapers overtakes some fine old family; mashes its house into junk and fills its place with a hotel or dressmaking establishment or millinery shop. The millionaires are still retreating north and are now far up by Central Park looking anxiously south for the arrival of the wrecking crews and the steel derrick.

Fifth avenue is the handsomest shopping street in the world below Central Park and the most elaborate residence street above that point. It contains the greatest church in America, the largest library outside of the one in Washington, the greatest art gallery in the country and the most expensive residence. It is lined with Venetian palaces, Egyptian facades, Roman porticos, Greek colonnades, Gothic spires and renaissance masterpieces together with considerable lobster nightmare agriculture. More automobiles infest Fifth avenue than can be found elsewhere in the world and the Sunday parade of fashions is so startling that western visitors refuse to believe it even when they see it.

Years ago Fifth avenue was a wilderness of brown stone front steps. However, these have all been removed by city order and the houses have been shaved off to give room for the traffic. The shaving has improved the looks of the street as much as it would the looks of a lieutenant of Coxey's army.

Fifth avenue contains the only motor bus line in America and a ride on the roof garden of one of these crafts is well worth twice the admission fee.

DAILY GRIST from the STATE'S POLITICAL GRIND

FRIENDS OF JUDGE DANIEL AGAIN URGING HIM FOR GOVERNORSHIP

Jackson, Ga., April 28.—(Special.)—Friends of Judge Robert T. Daniel, judge of the Flint circuit, throughout his circuit have been advocating him for governor. The fact that he refused to consider running if Governor Slaton offered for re-election has revived the interest of his friends in his candidacy.

Judge Daniel has been the presiding judge of the Flint circuit four years and during his term on the bench has won the esteem and confidence of his fellow-citizens. If he decides to make the race, the entire Flint circuit will without doubt give him a splendid vote.

Judge Daniel is very popular over the state and is one of the best known secret order men in the public eye today.

BRAND TO HAVE NO OPPOSITION FOR JUDGE OF WESTERN CIRCUIT

Athens, Ga., April 28.—(Special.)—Announcement has been made by Judge John S. Strickland, of Athens, that he will not make the race for judge of the western circuit against Judge Charles H. Brand, and this undoubtedly means that Judge Brand will have no opposition. Judge Strickland declares that for reasons of a personal and business nature he will not be able to put aside his law practice at this time. He says that the office of judge should not be sought in a hotly-contested political campaign, and that he would, under no circumstances, bring about such a condition.

Judge Charles H. Brand is widely recognized as one of the ablest circuit judges in the state and his widespread popularity is attested in the fact that in his last election he carried every militia district in his circuit, with the single exception of the district in which his opponent lived.

THREE-CORNERED CONTEST FOR JUDGE OF BRUNSWICK CIRCUIT

Hazlehurst, Ga., April 28.—(Special.)—Jeff Davis county's primary for county officers was held March 18, and the people are now looking forward to the statehouse officers. H. G. Moore, present representative, will announce for re-election, and will in all probability be opposed by Hon. Lott W. Johnson, who has represented this county, or Hon. Lamar Smith, a prominent planter.

For judge of the Brunswick circuit, Hon. C. P. Conyers, incumbent, has announced for re-election, and is opposed by Hon. Robert Barnett, of Douglas, Hon. J. T. Highsmith, of Baxley. This promises to be an interesting campaign, as all of the candidates are prominent and have a host of friends in the circuit. Hon. J. C. Bennett, of Hazlehurst, is in a receptive mood relative to the race for the judgeship, and will likely toss his hat in the race ere long, it is said.

The congressional race is beginning to warm. Hon. J. C. Henderson, of Ocilla, who has a host of friends in this county, is all but announced. Hon. J. Randall Walker, incumbent, has not as yet announced, but his announcement is expected daily, and the signs point very strongly to Hon. J. W. Quinn, judge of the Waycross circuit, entering the race.

All in all the eleventh district will see some warm times between this and August 11, the primary election. Governor, United States senator and for attorney general of Georgia, are receiving attention also.

SWIFT AND STOVALL RUNNING FOR STATE SENATE IN ELBERT

Athens, Ga., April 28.—(Special.)—Colonel Thomas M. Swift, of Elberton, will probably announce this week for the senate from the thirtieth district.

H. L. Stovall, member of the house this year, has already announced to succeed Senator R. T. DuBose, of Clarke. Mr. DuBose has positively declined to enter the race for the lower house from Clarke this year.

COUNTY PRIMARY IN COBB WILL BE HELD ON FRIDAY

Marietta, Ga., April 28.—(Special.)—Cobb's primary for county officers comes off Friday, May 1.

Never in the history of the county was there so little excitement over local elections. Sheriff W. E. Swanson and Tax Collector T. H. Lecroy have no opposition. Receiver Dunn is opposed by A. L. Terry, J. W. Gaines and H. Clay Lassiter. Treasurer Monto Shaw is running against Rev. E. M. Scott. Coroner John W. Brown and J. Loyd Reed. Coroner John A. Booth is opposed by J. H. Nix and W. M. Lance.

COWETA COUNTY VOTERS NAME NEW COUNTY OFFICERS SATURDAY

Newnan, Ga., April 28.—(Special.)—Coweta's primary for the nomination of county officers will be held Saturday.

With 2,800 qualified white voters and 21 candidates in the field for the various offices to be filled a lively contest is anticipated.

GOVERNOR OUT OF THE CITY; LITTLE DOING POLITICALLY

With the governor out of the city there was little of interest politically about the executive quarters on Tuesday with the exception of a heavy mail.

The governor spent the day in Fitzgerald, where he made a speech at the educational rally.

There were a number of politicians in the city, but grand opera occupied their attention for most of the day, with the exception of those who had to attend the meeting of the legislative committee investigating the proposition of the state's publishing its own school books.

BILL MAY BE INTRODUCED TO ABOLISH SCHOOL BOARD

And speaking of the committee investigating the school book proposition—

Representative McCrory, whose school book bill, upon the consideration of which the investigating committee was appointed, is pending in the legislature, it is said, predicts the introduction of a bill at the coming session of the legislature proposing to abolish the state board of education. It is Mr. McCrory's idea to replace the present board with another board, composed of one member, elected by the people, from each congressional district.

RALPH O. COCHRAN SPENDS DAY CAMPAIGNING IN COLUMBUS

Ralph O. Cochran, of Atlanta, candidate for the long term of the United States senate, spent last Saturday in Columbus. The following is the news comment of The Columbus Ledger:

"Ralph O. Cochran, candidate for the United States senate, making the race against Senator Hoke Smith, came into Columbus yesterday morning and spent the day going around and meeting the people, telling them of his platform. Mr. Cochran was on the road and can be seen by a representative of The Columbus Ledger, and he was shaking hands right and left. Mr. Cochran was asked by the newspaper man regarding his campaign for the senate, and he stated that he was in the race to the end, and ended saying: 'I am going to give the people of this state one chance anyway to vote for some one else besides Hoke.'

"Mr. Cochran is running this race on a clean, up-to-date business platform, running just as a simple business man, smiling and stating that platform of his with a 'solidity' seldom seen. No fences to patch, no past record to explain or to enlarge on, just a business man in the race for the senate.

"The senatorial candidate is a large man, who stands behind a large Shrine pin, easy of speech, with a good handshake, and an easy manner, which is making him many friends.

"Mr. Cochran left last night for Atlanta."

THOMAS AND HARRIS DENY REPORT THAT THEY WILL HOLD CONFERENCE

Valdosta, Ga., April 28.—(Special.)—The report of the daily papers of the state to the effect that Judge W. E. Thomas and Hon. N. E. Harris, both prominently mentioned in connection with the governorship, were to hold a conference in Macon, has been emphatically denied by both.

Judge Thomas, in an interview in the local paper, said:

"I know nothing of any such conference. I have not decided whether or not I will announce for governor. All I am doing now is to carefully study the situation, so that should I announce I would lead my friends to victory and not to defeat."

Reports from Macon contain the information that Judge Harris has also denied any knowledge of plans for a conference between him and Judge Thomas.

A petition has been received by Judge Thomas, signed by a lengthy list of Fitzgerald and Ben Hill county voters, urging him to announce for governor. The petition declares that Judge Thomas would carry that county should he make the race.

I. W. W.

By GEORGE MATTHEW ADAMS.

Do you know what the above letters stand for? A North Carolina Newspaper Editor recently said in an Editorial, that they stood for "I Want Work." But here's a better interpretation—

I Will Work!

A gentleman was driving the writer of this little talk through a beautiful, productive country—a night's ride out of New York City—and in the course of the conversation, the remark was made that the country could be made to yield a tremendous increase from its soil—if it could but get more and competent workers—more men who would put into real action the subject of this talk—

I WILL WORK!

Take a trip across the wonderful, rising South Country, traverse the marvelous middle and far Western Country—what's the most impressive thing to be felt? This—**Soil, Soil—sleeping, for want of workers—** for want of more of those who have already put forward development, because they said—

I WILL Work!

There is something, somewhere for every earnest, willing worker. The salvation for the idle is not to be had within the cities, nor out upon the vast lands and smaller communities for the factories, but within the souls of those who have the manhood and courage to say—and put it to the test—

I WILL WORK!

"Moving Days" Hard on Electric Service Companies.

In many American cities leases are written to expire on April 30 or September 30, so that, by long-established custom, May 1 and October 1 have come to be regarded as "moving day." A large proportion of the population of the cities is transitory, and it follows that a great burden of making meter changes, disconnections and connections falls on the public utility companies by reason of the moving-day custom.

An effort is being made in Chicago under the auspices of the Chicago Real Estate Board to cause renting agents to co-operate with the board in an endeavor to have leases terminate at various times during the year rather than almost entirely on the two dates mentioned. The movement is one that deserves general encouragement in all cities. In Chicago representatives of the electric-service company, the gas company, the telephone company and of the trust and warehouse interests have joined with the real estate men in an effort to bring about the proposed reform, which, by general consent, is believed to be to the advantage of all the business interests concerned as well as of the general public.

POEM BY FRANK L. STANTON MADE STATE SCHOOL SONG

The Georgia Teachers' association has adopted a poem by Frank L. Stanton, The Constitution's poet, as the state school song.

It was first sung by the girls of the Lanier High School of Macon, at the opening night of the teachers' convention in Macon last Thursday.

The words are set to the tune of "Dixie."

About a year ago the Georgia Teachers' association appointed a committee to secure a state school song.

That committee advertised in the newspapers of the state for an appropriate song, the words to be applicable to the tune of "Dixie," inasmuch as Georgia is the keystone state of the south.

Many songs were submitted, many of them not without merit, but the committee thought none entirely satisfactory and asked Mr. Stanton to write a song.

After the Macon school girls sang this song last Thursday night, the association adopted it.

The song is as follows:

I.

In Georgia Land, where the sky is bluest,
Heart and hand, where the heart beats truest,
Sing away, today,
Sing a song for Georgia Schools.

(Chorus.)

Her crystal streams to the glad sea singing;

III.

'Tis there we learn the state's high story,
The page we turn where shines her glory;
Sing away, away,
Sing a song for Georgia Schools.

(Chorus.)

IV.

Each Georgia son a friend and brother,
Their hearts beat high for the school—their "Mother";
Sing away, today,
Sing a song for Georgia Schools.

(Chorus.)

V.

Oh, the ties that bind no storms can sever,
Mother-Land of our Love forever;
Sing away, away,
Sing a song for Georgia Schools.

Oh, we live to love our Georgia;
Our own, our own.
Our heart and hand for Georgia Land,
To live our lives for Georgia;
Sing away, away, sing a song for loved old Georgia.

We love her vales with school bells ringing,
Her crystal streams to the glad sea singing;
Sing away, today,

TILLMAN FIGHTING FOR CHEAPER COAL

Senator Alleges That the Southern Railway Is Used in the Interest of Pennsylvania Mines.

Washington, April 28.—An investigation by the naval affairs committee of the senate of alleged manipulation of the coal business of the southern states in the interest of the Pennsylvania railroad system and the mines which use that system was recommended to the senate today by the naval affairs committee. Senator Tillman, chairman of the committee, urged the importance of such an investigation. The resolution was referred to the committee on audit and control.

"The fight is in the interest of the navy and naval stations and for the consumers of coal in the south Atlantic states and for the producers of coal in the Appalachian fields, involving mines in West Virginia, Virginia, Kentucky and Tennessee, against the alleged coal trust which is dominated by and is run in the interests of the Pennsylvania railroad system," said Senator Tillman. "The owners of the coal mines not in the coal trust are making little or no money because of discrimination and favoritism on the part of the railroads. The southern states are being milked systematically to enrich Morgan & Co., George F. Baker and their associates, living in New York mainly. Southern industries are languishing and put to undue expense because of the high price of coal and other discrimination."

Says Railroads Dominate.

Declaring that the railroads dominate the entire coal situation in the south, Senator Tillman said:

"I was talking with a friend last week in South Carolina, who is president of three cotton mills, and he told me that coal cost them at the mines around $1 per ton, and miners could make money at that; that the cost of transportation was anywhere from $1.75 to $2.50. This is due to the fact that the Southern railway, as is alleged, is controlled by Morgan & Co. and associates, who use and abuse it in the interest of their great investments in coal mines on the Pennsylvania system.

"There can be no just reason why the manufacturers in Georgia, South Carolina, North Carolina, Florida and Virginia should be discriminated against and their industries throttled or made to bear unjust burdens as compared with their competitors in other states.

"Another thing: This coal trust, so-called, by some arrangements which we seek to find out, has shut off shipment of coal from West Virginia and the territory I have outlined to New York or any point south of it. The city Washington itself is prevented from getting coal from this field on account of Pennsylvania's dominating attitude towards the other coal roads, viz., the Southern railway, the Chesapeake and Ohio and the Norfolk and Western railway.

"I am told it costs 67 cents a ton to get coal across the bridge here from Alexandria, seven miles. If it comes from the mines on the Southern railway, while coal from the mines on the Norfolk and Western railway, shipped over the Southern railway, comes into Washington at only 20 cents a ton higher than the rate to Alexandria.

Alleges Southern Is Robbed.

"I am told that the people of the South Atlantic states are sending several millions of dollars to the coal fields of the Pennsylvania system to pay for fuel and for its transportation which ought to go to the Southern railway and to the mines on the Southern railway. I am no champion of the Southern railway's intervention, but hate to see a fine property like that robbed of its just rights by its trustees. The relation of the trustees to the property in trust is a sacred one, and I want to call on Mr. George F. Baker and his associates in the trusteeship to give an account of their stewardship of the Southern railway. Besides, the people of my state are directly interested in getting cheap coal for fuel, both for consumption in their homes and to run their factories with; and as the Southern railway penetrates the fields, it ought to serve our people by bringing us cheap coal; but it is not allowed to do so because it is not managed for the interests of the stockholders.

"If coal is shipped to Norfolk, it cannot go to New York at all, or any intermediate port or point, without a free trade in coal within the area embracing the states of New York, Pennsylvania, New Jersey, Delaware and Maryland, nor in the South Atlantic states, and the navy and naval stations on the Atlantic coast are completely at the mercy of the coal trust, both as to the supply and the price of their coal."

MONEY NEEDED TO BAR DISEASE FROM MEXICO

Washington, April 28.—A new phase of the Mexican problem was brought to the attention of congress today when Secretary McAdoo, on behalf of the public health service, asked the house to appropriate and make "instantly available" $100,000 to prevent the introduction and spread of epidemic diseases. The current year fund for this purpose is exhausted.

"The danger to this country from the introduction of smallpox and typhus fever," Mr. McAdoo reported, "is greatly augmented because of the arrival of refugees and persons returning from Mexico to United States ports."

nounce Ragsdale and Barber "with all the vehemence of their natures." They declare they were misled by the two men, and took their testimony with all confidence in both affiants. They were given numerous affidavits from responsible citizens, among them Dr. John E. White, who vouched for the character of both Ragsdale and Barber.

Dr. White Makes Statement.

In explanation of his connection with the Rev. C. B. Ragsdale phase of the Frank case, Dr. John E. White, pastor of the Second Baptist church, last night told a reporter of The Constitution that he had been asked to vouch for the minister's character by a detective from the Burns agency.

"I was visited in my office," he said, "by a young man, who told me he was a detective from the Burns agency, who had been waiting for my arrival. He said he had come to inquire into the character of a Baptist minister, and asked me if I knew the Rev. C. B. Ragsdale.

"He asked me if Rev. Ragsdale was a good man, and if I would believe him on oath. I answered in the affirmative. I was then asked if I would make an affidavit to that effect. I called up Rev. B. F. Roberson, who was more intimately associated with Ragsdale than I, being superintendent of the Mission Board of the Atlanta Baptists.

"I asked Rev. Robertson if he had ever heard anything contrary to Ragsdale's character. He replied that Ragsdale was pastor of the Third Ponce de Leon church, and that he was in good standing. I then made the affidavit expressing my confidence in the man's character. I had no intimation of the nature of Ragsdale's testimony."

in several years. It probably is second only in fatalities to the Monongah explosion in December, 1907, when 366 miners lost their lives.

While the loss of life here will be heavy, there is a relief for families of victims that was not in force at the time of former disasters. The new workmen's compensation act provides $20 a month for widows, and each of the surviving children, not to exceed three, is entitled to $5 a month.

Governor Henry D. Hatfield, accompanied by Earl Henry, chief inspector of the state's department of mines; Dr. J. H. McCullough, chief medical examiner under the workmen's compensation act, and W. L. Thomas, chief assistant to Henry, were expected here at midnight. The governor, a physician himself, and Dr. McCullough will take charge of affairs on their arrival.

A thorough search of mine No. 6 has failed to disclose the thirteen men known to be in that operation. It is believed their bodies will be found under debris.

General Manager S. A. Cott, of the New River Collieries company, and T. H. Huddy, general manager of the Sunday Creek mines, are due here before morning to give assistance.

SEVEN AMERICANS REPORTED KILLED

Continued From Page One.

Rear Admiral Cradock, commanding the British cruiser squadron, to advise Rear Admiral Fletcher of the changes in the routing of the train so that the Americans at Vera Cruz may send transports to Puerta Mexico for the refugees. Virtually all the American women and children in the capital will leave the city by this train. The American banks and some American business houses were open today, but most of American concerns remained closed.

Mexican volunteers to be used in repelling an American invasion are being drilled daily.

109 AMERICANS REACH VERA CRUZ.

Washington, April 28.—Arrival of 109 Americans at Vera Cruz at 5 p. m. today was reported to the navy department tonight by Admiral Fletcher. Of these, sixty-three were from Lomo Ponito, eleven from Potrero and the remainder from Cordoba Tierra Blanca and outlying districts. Admiral Fletcher announced that all Americans now are believed to be out of the country lying between El Buro and Cordoba, as well as that between Cordoba, Tierra Blanca and Vera Cruz. He added that, as far as could be discovered, no Americans had been injured.

Nearly all foreigners in the vicinity of Durango and Torreon have left Mexico, according to a telegram from Consul Edwards at Juarez.

Consul Alger, at Mazatlan, has reported to the state department that Americans remaining at that point are five women, twelve men and fifteen children. Other foreigners are 471 Chinese, 150 Spaniards, fifty Germans and various nationalities to the number of about fifty. A number of refugees will arrive at San Francisco May 2.

Admiral Howard late today wired from his flagship, the California, at Mazatlan, that he is assuring Mexican coastwise steamers that they will not be molested, and they can carry refugees.

"All refugees at Mazatlan have had ample opportunity to leave," the dispatch announced. "The consular agent at Guaymas and all others are now on board ships. Three hundred refugees left Manzanillo and seventy-eight left Mazatlan."

Consul Canada reported the receipt of the following telegram from General Maas, the Mexican federal commander now at Soledad, dated April 27:

"Esteemed Mr. Consul: I hereby answer your esteemed letter of the 25th instant, advising that, in accord with instructions which I have received from my government, the military authorities under my command have been ordered to permit foreigners of any nationality whatever to leave the republic at will. Relative to Mexican citizens who desire to leave the city of Vera Cruz, you may permit or prohibit the same according to the orders you may have in the premises."

VILLA AND CARRANZA TO REMAIN NEUTRAL

El Paso, Texas, April 28.—Carranza and Villa have reached an agreement, according to a Mexican newspaper man who arrived from Chihuahua tonight, that the rebels will remain mere spectators so long as there is no invasion of rebel territory.

Chihuahua, Mex., April 27.—(Via El Paso, April 28.)—Revolutionary headquarters here today denied that relations between General Villa and General Carranza were strained, in proof of which a friendly telegram from Villa at Juarez to Carranza was exhibited.

The railroad from Monterey to Tampico is being repaired and the defeat of a federal force at Santa Catarina, south of Monterey, is reported. The rebels captured 300,000 cartridges, 250 rifles and one field piece, according to the report. The federal loss is given as 200, including General Enrique Perez, and the rebel loss sixteen.

SMALLPOX IS FOUND AMONG THE REFUGEES

Galveston, Texas, April 28.—Smallpox was discovered on the collier Cyclops today, after about half of the 360 American refugees brought here by the collier had been allowed to land. Earlier in the day the steamship Esperanza and the convoy Dixie landed their refugees, and by nightfall over a thousand American refugees roamed through the streets of Galveston waiting for trains to depart to their homes.

While the refugees on the Cyclops were passing down the gangway, the ship's doctor observed a negro who was developing smallpox. Immediately the landing of the refugees was halted and efforts made to bring back those refugees who had left the ship. Once on board, the refugees were all vaccinated, and then permitted to depart. Dr. McGlesson, the state health officer, said he believed that all aboard the Cyclops had been vaccinated, and there was little likelihood of further trouble.

Hereafter, all refugees brought to this port will be vaccinated.

NEW YORK IS COALING FOR RUN TO MEXICO

Newport, News, Va., April 28.—The superdreadnaught New York flagship of the recently-formed "flying squadron," arrived in Hampton Roads this afternoon en route to Vera Cruz. The ship began coaling immediately after dropping anchor and the work is being rushed in order that she may resume her run to Mexico tomorrow. The New York has a large number of marines aboard. It is said here she will be the first battleship to pass through the Panama canal.

Oscar Mills Calls on Tull C. Waters to Explain

TO THE VOTERS OF FULTON COUNTY:

The issue between me and Mr. Tull C. Waters IS NOT the record of Mr. S. B. Turman and of Mr. W. T. Winn as county commissioners.

As to their records, I am not concerned.

The issue between me and Mr. Waters is MR. WATERS' RECORD.

I propose in this campaign to compel Mr. Waters to stand before the voters for election or defeat ON WHAT HE HAS DONE AND FAILED TO DO.

The voters are entitled to have an explanation from Mr. Waters of some facts in his record.

Mr. Waters bought $21,000 of asphalt paving material without having it analyzed. After delivery it was analyzed by Dow & Smith, of New York, the leading chemists of the United States in this line of work, and they reported that it was unfit for use on our roads in Fulton county. The samples submitted to Dow & Smith were not listed according to the various manufacturers, but were numbered, so that they were obliged to make a fair examination and an unprejudiced report.

What is Mr. Waters' explanation of this transaction?

The convicts of Roseland camp for 3½ months have been at work on Waters avenue, adjacent to Mr. Waters' farm—whence the avenue derives its name.

Why hasn't Mr. Waters, as chairman of the board, put these convicts to work on a road to College Park, to enable the people of that community to travel back and forth to Atlanta?

The county board in February directed the establishment of a convict camp in the north end of the county.

Why did Mr. Waters select as the first piece of work to be done the construction of a brand new road through Mr. Clifford L. Anderson's 200-acre farm?

Mr. Anderson and Mr. Waters constitute a majority of the public works committee of the county board, which committee practically controls the road work.

The program of county work for the current year is usually submitted to the board in January, so that no time will be lost in getting started.

Why has Mr. Waters waited until April to submit his program of 1914 work?

Recently a certain contractor submitted to the board a proposal—not a bona fide bid, in competition with other bidders—to paint the county's bridges for $6,000. The proposal was referred by the board to the public works committee, of which Mr. Waters and Mr. Anderson, as above stated, constitute the majority. Without reporting back to the board and WITHOUT OBTAINING COMPETITIVE BIDS, AS REQUIRED BY LAW, Mr. Waters let the contractor go ahead.

What is Mr. Waters' explanation of this transaction?

There are many facts in Mr. Waters' record which I propose to make him explain, because it is ON HIS RECORD that he must stand or fall.

Respectfully,

OSCAR MILLS.

SPEAKING OF RECORDS

ONE RECORD:

A. P. Stewart, Tax Collector, running for re-election after 25 years' service—and "fees," says:

"I stand on my RECORD."

All right; here it is:

A. P. STEWART, Tax Collector, Plaintiff in Error
Versus
Commissioners of Roads and Revenues of Fulton County, Defendant in Error.

No. 80
Atlanta Circuit
Supreme Court
from
Fulton Superior Court

Judge Pendleton held the salary act good. Stewart appealed to Supreme Court. Among other things, he said the salary act was bad because it attempted "to deprive him of his private property without due process of law." HIS OFFICE—HIS FEES—"PRIVATE PROPERTY"—think of it, Mr. Voter! Is it not time to "excuse him" from further services. He will claim the whole COUNTY next time!

THE OTHER RECORD:

C. I. Branan, candidate against Stewart, has spent twenty years of time and money in FIGHTING for the PEOPLE of this county to STOP "fees" to county officers and SUBSTITUTE SALARIES.

The only way to do it is to elect Branan. He pledges himself, personally and officially, to see the law passed and ENFORCED. This will not only save the people of this county ONE HUNDRED THOUSAND DOLLARS each year, but Branan WILL NEVER CLAIM that he owns the office of Tax Collector. Is it possible any MAN will vote for A. P. Stewart who knows the FACTS?

Mrs. Jordan Gives Breakfast

Mrs. Lee Jordan was hostess at a beautiful luncheon yesterday in honor of Mrs. Gordon, of Columbus, the guest of Mrs. J. K. Orr. The guests were twelve in number and the table decorations were markedly artistic in the spring flowers in the exquisite shades of the iris, snap dragons, roses and lilies. These colors were reflected in the minor details and a unique feature was the souvenirs in French dolls converted into little opera ladies and mounted on frames which covered the ice cream molds.

Each one wore a costume in the design worn by Geraldine Farrar in "Manon," the bodice, full skirt and head dress, and each tiny figure holding a musical score.

Mrs. Jordan wore a becoming costuma in gray and coral color.

To Opera Visitors.

Mrs. Thomas Flournoy, of Fort Valley; Mrs. Henry Drane and Mrs. Monroe Green, of Macon, are the house guests of Mrs. Whit Durden on Forrest avenue for the grand opera week.

Many social affairs are being planned in their honor. On Monday afternoon Mrs. William Waltz entertained at a box party at the Forsyth. Mrs. Durden entertains on Wednesday afternoon at the Piedmont with a tea for her guests. Several other affairs are being planned for Mrs. Durden's visitors.

Brown-Feagle.

The wedding of Miss Myrtle Brown and Mr. Frank Feagle, of Greenville, S. C., was a beautiful event of last evening, which took place at the home of Mr. and Mrs. D. B. Wilder, on Ponce de Leon avenue, Dr. John E. White officiating.

The bride was lovely in her wedding gown of white crepe. The corsage was draped with chantilly lace, and lace was also draped effectively on the skirt and caught to the train with sprays of orange blossoms and natural orange blossoms caught her tulle veil. Her only ornament was a pendant of diamonds and pearls, the gift of the groom. Her bouquet was bride roses showered with valley lilies. She was given away by Mr. Wilder.

The matrons of honor were Mrs. George Summers, of Augusta, who was gowned in pink taffeta, combined with lace, and she carried an armful of Easter lilies, and Mrs. George Feagle, of Valdosta, wore blue taffeta and lace, and carried pink roses. The ribbon bearers were little Misses Alice Pope Summers and Julia Anne Hagan, who wore dainty white dresses with pink and blue sashes.

Mr. Joseph Feagle, of Greenville, S. C., was his brother's best man. Mrs. W. W. Stanley sang several selections before the ceremony, and played the wedding march.

The mantel in the living room was banked with handsome palms and ferns and Easter lilies. At either side were cathedral candlesticks, which formed a beautiful setting for the bridal party which was grouped in front. The dining room was in pink and white, the table having a basket of bridesmaid roses and the bonbons were pink and white and heart-shaped. The silver candlesticks held unshaded pink candles, and pink roses were effectively used on buffet and on the mantel, which was also banked in palms and ferns. The punch bowls resting in beds of pink, white and blue sweetpeas were placed in the library and dining room, and were presided over by Misses Kathleen Law, Leila Ponder, Tyler Daniel, Virginia Culler, Mary Brittain and Elizabeth Smith. A reception followed the ceremony, at which a large number of friends were entertained.

The bride's going-away gown was midnight blue silk, with lace blouse, which had a touch of green to match the hat of green.

Mr. and Mrs. Feagle left for Baltimore, Philadelphia and New York for a month's trip.

Mrs. Wilder was gowned in corn-colored silk, with overdraperies of blue-spangled net, and wore Lady Hillington roses.

Her visitor, Mrs. Kathrine Summers, of Barnesville, assisted and wore nile green satin, draped in crystal.

Tea was served in the palm room, where a profusion of pink roses was effectively used for decoration with handsome plants.

Mrs. Shallenberger wore a gown of tan silk, combined with brown, with hat to match, and her sister, Mrs. Trosdale, of Savannah, wore black taffeta, with lavender hat.

Crankshaw, Dr. Willis Ragan, Mr. James Ragan.

The long table was artistically adorned in pink roses arranged in plateaux. In the center was the larger one sprayed with valley lilies. At each end were smaller plateaux, and garlands of smilax and soft knots of soft pink ribbon completed the decorative effect.

The chandelier over the table was showered in pink roses and smilax, softening the lights, and the side lights were similarly shaded. On the wine glasses little songbirds were perched, and souvenirs of the occasion were tiny pingue vases holding pink flowers.

Mrs. Blodgett was beautifully gowned in cloth of silver, with overdress of lace.

MEETINGS

The North Avenue Parent-Teacher association will hold its next meeting on Friday, May 8, at 3:30 o'clock. This change of date was found necessary because of opera week and Field day. As this will be the last meeting till fall, a full attendance is urged.

FEDERAL RESERVE BANKS IN ACTION BY AUGUST 1

Secretary McAdoo Thinks System Will Be Ready for Business by That Date.

Washington, April 28.—Secretary McAdoo announced tonight that the treasury department expected the new federal reserve banks would be ready for business by August 1.

A statement by the reserve bank organization committee said subscriptions to the stock of federal reserve banks in the twelve districts, received up to noon today, aggregated $71,998,600. The banks in six of the twelve districts already have subscribed more than the minimum amount of $4,000,000 necessary to organize the reserve banks.

These districts are the first, second, third, fourth, fifth and seventh, the reserve banks for the districts being located respectively in Boston, New York, Philadelphia, Cleveland and Richmond and Chicago.

A statement issued by Secretary McAdoo said:

"The subscriptions thus far received have come from 4,643 banks out of a total of 7,484. The largest number of subscriptions received from any one district has been received from the seventh, or Chicago district; the next largest has come from the third, or Philadelphia district. Indications are that before the first of May three additional districts will have subscribed for the requisite minimum of $4,000,000.

"The banks are being organized with the maximum rapidity that observance of the formalities prescribed by law permits."

FLOYD COUNTY PRIMARY PASSES OFF QUIETLY

Rome, Ga., April 28.—(Special.)—Returns from the county precincts in Floyd county's white primary today insure the re-election of John M. Vandiver as tax collector over Leonard G. Todd, and of John W. Miller as coroner over D. B. Aycock. J. R. Barron received practically every vote for sheriff, W. C. Duncheo, his opponent, having this morning announced his withdrawal from the race, following an encounter in which he shot W. G. Smith, a candidate for deputy sheriff on the Barron ticket, Monday night. Duncheo's action relieved a tense situation, as trouble between partisans as the polls had been feared, but the primary passed off quietly without disturbances of any kind.

Owing to the fine weather the farmers were kept at their work, and not more than 3,400 votes out of a registration of 4,156 were cast.

The race for two county commissioners' places between J. Scott Davis and W. C. Connor, F. C. Griffin and T. H. Mullis, is close, as is that between J. Tom Jenkins and Zack Salmon for tax receiver. The results in these races will depend upon the vote in the Rome precinct, which will not be known until an early hour in the morning, but chances favor Davis and Griffin for commissioners, and Salmon for tax receiver.

BARRETT IS NOMINATED IN WHITE CO. PRIMARY

Cleveland, Ga., April 28.—(Special.)—Unofficial returns of today's primary indicate that J. B. R. Barrett is nominated for clerk of superior court over G. N. Colley and J. M. Glass; Autry William Palmer, for coroner, and John Satterfield, for treasurer, over six other candidates.

The Real Secret of Rejuvenating the Face

She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the nightly application of ordinary mercolized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercolized wax, procurable at any drug-store (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckles, blackheads, pimples, moth patches, liver spots and fine surface wrinkles.

For the deeper wrinkles, an excellent recipe is: Powdered saxolite, 1 oz., dissolved in ½ pt. witch hazel. Bathing the face in the solution produces quick and wonderful results.—(Adv.)

GLASS TAKES HIS LIFE IN PEACHTREE HOTEL

Well-Known Business Man of Sharpsburg, Ga., Ends Troubles With Pistol Ball.

H. E. Glass, a prominent business man of Sharpsburg, Ga., shot himself through the heart at the Winecoff hotel Tuesday between 1 and 2 o'clock in his bedroom. A maid knocked at his door, and failing to receive a response, opened the door and found him lying across his bed in a pool of blood. He was dressed in his underclothes, having arranged in careful order his outer garments, which were hung on chairs in the room. He was last seen in the hotel's lobby about 1 o'clock.

In the dead man's undershirt sleeve was found a death note. It read in part as follows:

"God have mercy on my soul. I am going to join my dear wife in heaven. I cannot forbear this any longer. I hope my friends will forgive me for doing this. Give my love to my friends."

Another letter was found in Glass' coat which was not dated. The letter was signed by his wife. It was written upon the stationery of a hotel at Moultrie, Ga. Its contents indicated that some time in the past his wife had taken her life, and this letter appeared to be the death note she had left for her husband.

It told him how much she loved him, and asked his forgiveness. Glass is believed to have taken his life after brooding over the deed of his wife. The letter from him was worn, showing that it was carried around in the man's pockets.

Another note written by Glass requested that his brother, G. W. Glass, at Sharpsburg, Ga., be notified.

The body was removed to Greenberg & Bond's undertaking establishment, where an inquest was held last night by Coroner Donehoo, resulting in a verdict of suicide.

The man's relatives in Sharpsburg have been notified and are on the way to Atlanta to carry the body back home.

Glass registered at the hotel April 23.

FOURTH WARD TO GET OUT A RECORD VOTE

Plans Are Discussed to Help the Passage of Grady Hospital Bonds.

Plans for a Greater Grady mass meeting to be held Saturday night in the North avenue school, were made yesterday afternoon at a luncheon in the Hotel Ansley, of the Grady committee of the Fourth ward.

There are 1,536 votes in the Fourth ward. Two-thirds of them—or 1,024—have to be in favor of the bonds for the ward to be carried. How to get out those 1,024 votes was the subject which occupied the attention of the thirty residents of the ward who assembled at luncheon yesterday.

It was noticeable that no one of these thirty residents had anything more than the average citizen to gain or lose by the passage or non-passage of the bond issue. Not one of them was any more apt than the average citizen to find his way into the city hospital. Yet every one of them is lending a large portion of his personal time to the work of getting the need for a Greater Grady before the people.

L. L. Hicks, secretary of the committee, stated the exact position of the committee in a short speech.

All Need Hospital.

"Any one of us," he said, "might imagine today that we would never have the slightest personal need for the services of the city hospital. Yet, if any one of us were to be injured a few minutes from now on the street, it is to the Grady hospital that we would be taken. Of course, we haven't much chance of being injured. There isn't much chance of our homes or places of business catching fire, either, but there is enough for us to maintain a fire department equal to the size of the city. In times of danger, good hospital facilities are just as important as good fire-fighting facilities. Atlanta increases her fire department with the size of her population. She should increase her hospital in exactly the same way. We wouldn't expect to protect the city from fire with a department which was twenty-three years out of date; yet we depend on that kind of a hospital to protect Atlanta from disease, and, when we are in danger, to protect our lives."

W. S. Elkin presided at the meeting. He appointed E. H. Cone, R. C. Beeche, George H. Fauss, Colonel E. E. Pomeroy and W. B. Ballard, on the committee which is to arrange for the mass meeting Saturday night. Efforts are being made at the headquarters of the general committee in the chamber of commerce building to arrange for other mass meetings to be held the same night in all the other wards of the city.

It is also planned to have as many ministers as possible remind the male congregation of their obligations of the approaching issue Sunday morning. The only thing which now appears possible to keep the bond issue from passing is indifference on the part of voters, and it is this that the various ward committees are trying hardest to overcome. Little difficulty is anticipated in getting the ministers of the city to take up the matter, as the humanitarian principles involved give it an obvious religious significance. The committee which is to see the ministers is composed of C. T. Nunnally, W. S. Featherstone, J. C. Logan and J. R. Mayson.

Interesting Comparison.

Ivan E. Allen, vice chairman of the general committee, drew an interesting comparison yesterday between Grady hospital, as an institution, and the average business concern.

"Suppose," he said, "that the average Atlanta business concern were to attempt to serve its trade of today with the same equipment with which it served its trade of twenty-five years ago? Can you imagine one of the big downtown stores trying to carry on its 1914 business in the same quarters that it used in 1890? Yet that is exactly what the city is attempting to do at Grady hospital. Except for the building erected in 1910, which accommodates little more than a third of the 200 patients who can be squeezed into the institution, Grady hospital is precisely the same institution it was when the population of Atlanta numbered less than a quarter of what it does today. In such an institution, it is inevitable that a great deal of the maintenance money spent upon it be wasted. What business man would expect to economically carry on his affairs in a structure which was twenty-five years behind the times? Atlanta is throwing money away every day it tries to get along with the present hospital.

P. S. Arkwright, president of the Georgia Railway and Power company, expressed himself yesterday as heartily in favor of the bond issue.

Behind the Times.

"There is no question," he said, "that Atlanta needs a larger and better equipped hospital. The present one is thoroughly behind the times. I shall certainly cast my vote in favor of a Greater Grady."

W. L. Peel, president of the American National bank, also spoke warmly for a new hospital.

"I have been over the old hospital," he said, "and I know it to be wholly inadequate to the demands which are made upon it every day. In my mind, one of its worst features is the absence of any proper provision for persons suffering from contagious diseases.

"I have heard that a few people complain that $750,000 is too large a bond issue. My personal opinion is that $750,000 is a small sum compared with the amount of work to be done—work which if it is not done today, positively will have to be done tomorrow. Atlanta has to build another hospital, and it might just as well get accustomed to the idea. It has worried along with a makeshift for a long time, but the makeshift won't do any longer. The thing must be done, and when you have a big proposition like this on your hands, the only way to do it is to do it all at once—and do it right."

L. & N. IS NOT LIABLE FOR BOGUS COTTON BILLS

Decatur, Ala., April 28.—Announcement was made here tonight that the United States court of appeals in New Orleans had affirmed a decision holding the Louisville and Nashville railroad not liable for damages in one of the alleged spurious cotton bills of lading cases growing out of the suspension of Knight, Yancy & Co., a large local cotton firm, a few years ago.

Alexander Eccles & Co. sued the railroad for $78,000, basing their claim on alleged fraudulent bills of lading. Other suits said to be of a similar nature were filed against the railroad, the total amount of damages demanded amounting to approximately $3,500,000.

Lower courts held the claim of Alexander Eccles & Co. against the railroad to be not valid and an appeal was taken, which resulted in the decision today.

Usually the possession of money represents frugality and old age.

GREAT SUFFERER FROM LIVER AND STOMACH

Used Many Different Remedies With No Result But Finally Succeeded With Thedford's Black-Draught

Ridgeway, Va.—Prof. T. A. Walker, of this town, says: "Twenty-odd years ago, I became a teacher. The work was very confining and did not then very well agree with my health, and soon I became a great sufferer from liver and stomach troubles.

I used many kinds of liver and stomach remedies, but from none of, these did I receive anything more than temporary relief. Yet, it seemed that I was compelled to take some kind of liver and stomach medicine. I became despondent and hardly knew what to do.

Along about this time Thedford's Black-Draught was recommended to me. I bought some and began its use. It did not take me long to discover that I was using a superior medicine. It thoroughly cleansed my liver and stomach, and gave me an almost ravenous appetite. My indigestion soon passed away, and so did my brown greasy-looking complexion. In short, I felt like a new being.

Now, I keep Black-Draught on hand all the time and take it occasionally. I cannot afford to be without it. If I ever have a sick spell, I take Black-Draught, and it always brings relief. I verily believe that Black-Draught is the best liver and stomach medicine that ever was made."

"POP" ANSON DAY AT PONCE DE LEON

Edited By DICK JEMISON

GEORGIA DEFEATS V. M. I. CADET NINE

Hitchcock Hurls a Nice Game—Bob McWhorter's Hitting Cinched the Game. Score 4 to 2.

Lexington, Va., April 28.—(Special.)—University of Georgia took the cadets of the Virginia Military institute into camp this afternoon, 4 to 2. The game was exciting from start to finish, and the Georgia Peaches put up a great game.

Hitchcock pitched a good game, and pulled himself out of several holes, as the cadets had thirteen stranded on bases.

Georgia started scoring in the first. After Ginn was out at first, Clements singled and McWhorter followed with a homer to deep right. Henderson singled, but was doubled when Harrison lined one into the pitcher's hands.

In the second, Owen singled, Holden was hit by pitcher, Hitchcock singled, Torbett fanned, Ginn hit to second, forcing Owens; Clements flied.

Clements got a life on Nash's error (only one of game) in the fifth, went to second on passed ball, scored on McWhorter's single.

Harrison singled in the sixth, stole second and tallied on Holden's triple.

Cadets scored in first on Gallagher's single, Sewell's sacrifice and Clarkson's double.

In seventh, Gillespie walked. Hitchcock went into the air and walked three in succession, forcing Gillespie. Sewell tripled in the ninth, but air-tight work prevented him scoring.

The batting of McWhorter and Clarkson and the fielding of Henderson, Hitchcock and Gillespie featured.

LONG AND WELCHONCE RAPIDLY IMPROVING

Harry Wants to Get Out—"Rabbit" May Get Into the Game Today.

Reports from the Crackers' hospital list Tuesday were encouraging and Atlanta fans can brighten up a little.

Harry Welchonce was considerably improved Tuesday, so much so that he is begging to get out and is asking for plenty to eat. He'll be out in a day or two, and will be back in the game when the Crackers return from Nashville next Tuesday.

Long's fingers are mending rapidly, and if the speed merchant believes that he can throw without pain, he'll be in left field this afternoon.

No new developments have arisen in Holland's case.

Fifteen Hits Apiece But Locals' Are More Timely; "Pop Anson" Day Today

By Dick Jemison.

It took two hours of indifferent ball playing, with base hits resounding throughout the park, for the Crackers to pin the token of defeat on the Turtles for the second time during the present series, and the fifth time in six starts this season.

The final count was 11 to 7, with each side getting fifteen blows. The Crackers were more timely and brought home the victory.

The game was raggedly played in the field and but for a couple of brilliant stabs by Red Lynch and the hitting of both sides was featureless.

Johnson started for the Turtles, but was wild and after three runs had been scored off of him with none out in the first inning, Smith was substituted. The latter was hit hard. The Turtles took a fancy to Efird's curves throughout.

How They Scored.

The Turtles tallied twice in the opener. Allison walked. Coyle singled. Stark sacrificed them both up a base, and Mullen produced the clout that sent them home.

The Crackers got these two back and some more to spare in their half of the first. Johnson hit McConnell and Jennings to start it off. Eibel beat out his bunt, filling the sacks. Browning got a free ticket, forcing McConnell home.

Flanagan steamed one to right for a cushion, scoring Jennings and Eibel. Johnson was yanked here and Smith took his place. Kircher laid down a bunt and beat it out for a hit.

Lynch forced Kircher at second, but Browning tallied on the play. Reynolds hit a long fly to left, which Duggan dropped, and Flanagan cantered in.

Jennings opened the second with a single, and Eibel sacrificed him down. Flanagan's single scored Jennings. Kircher beat out an infield hit, and Lynch's single scored Flanagan.

With two gone in the Turtles' fifth, Stark singled, Mullen doubled, scoring him, and Shanley singled, scoring Mullen.

Tally Again.

Lynch opened the Crackers' half of the same inning with a single to left. Reynolds hit to third and a late throw all the way around let both men get safe. Efird sacrificed. McConnell's infield hit tallied Lynch.

With one gone, Flanagan was hit. Kircher singled, Flanagan going to third. When Seneff let Shanley's throw get by, Flanagan tallied and Kircher went to third. Lynch singled, scoring Kircher, and when Shanley errored, Lynch went to second. He tallied on Reynolds' single.

Coyle's single followed by errors by Lynch and Jennings tallied one for the Turts in the seventh.

Stark's single, Mullen's double and Seneff's single tallied two more in the ninth.

Pop Anson Day.

Today is Pop Anson day at the ball park. The veteran Chicago first baseman, who is appearing at the Forsyth theater, will be the guest of honor and will hurl the first ball of the game, like mayors, governors, etc., but Cap will get it to the catcher, something civic officials never do.

Perryman and Dunn will be the battery for the Crackers with Johnson or Liebhardt and Schlei for the Turtles.

Today's game will be called at 3:30 o'clock, but the final game of the series Thursday will be staged at 3 o'clock to permit the Turtles to catch a train.

RIVERSIDE REVERSES SCORE WITH GORDON

Gainesville, Ga., April 28.—(Special.) The Riverside Military Academy defeated Gordon Institute here this afternoon by the score of 10 to 9 in a hard-fought game of baseball. This evens the count for the series, Gordon winning yesterday.

The pitching of Morris and Dazier and the hitting of Harden and Dumas featured the game. Good crowds witpassed both the games here and although the rivalry was intense, the crowds were kept off the field and the best of feeling prevailed.

Dozier hurled nice ball for Gordon, fanning six men, errors figuring in the runs scored off of his delivery. Maxey, who finished the game, did not allow a hit or a run and fanned four batters in two innings.

Morris, twirling for Riverside, pitched the last five innings, after twirling Monday. He fanned five men and allowed but four hits and three runs.

Kingery, for Gordon, who was ill, went into the game and singled in the eighth, but fell from exhaustion five feet from the plate and his hit went for naught, breaking up a possible Gordon rally.

The G. I. A. A. standing now is:

A. U. Wallops Allen.

By timely hitting, daring base running and sensational fielding, Atlanta university defeated Allen university, the "Pride of South Carolina," by the ludicrous score of 12 to 11. To name stars would be to name each one of the Atlanta players, but Maxwell, Speight, Cater, and especially Sidney Williams, who donned his togs for the last time with Atlanta, since he finishes this spring, starred in fielding, while Holder, Williams and Captain Bell wielded the willow with deadly effect. The Allen boys have a pretty fair team, but she "didn't have 'em" yesterday.

Sewanee 11, Kentucky 7.

Sewanee, Tenn., April 28.—(Special.) Sewanee got full revenge for her defeat yesterday when she shut out Kentucky State in the last game of the series by the score of 11 to 0.

The Kentucky boys played miserable ball, while the Tigers hit the ball hard in every inning. Walker allowed the visitors only four hits.

The entire Sewanee team played splendid ball, and fielded in sensational style. The game was called in the first half of the eighth to allow the visitors to catch a train for Tuscaloosa.

Willard Stops Boer Rodel; Boer Was Game, That's All

Jess Willard stopped Boer Rodel in the sixth round of a scheduled ten-round bout at the Orpheum theater last night. The result was forecasted from the time the men stepped in the ring.

If Rodel ever won a decision from Willard, as reported, the big cowboy must have had one hand tied behind his back. It was a shame to let the men get together. Willard stood at least seven inches taller than Rodel and weighed at least fifty pounds more.

The only redeeming feature was Rodel's ability to take punishment. Willard has the build for a champion, but he lacks the class. He can hit—when he lands—but a clever boxer could make him miss oftener than he would land.

We hate to think what Johnson or Sam Langford would do to him. Shades of Corbett, Jeffries and Fitzsimmons, where is the class of the heavies if Jess is a sample of the best? All in his favor is his size.

A poor house turned out. Maybe everyone thought they were going to get pinched. The prelims were fair. Davis quit in the second in his bout with Hooper. Underwood got the decision over Goldman.

New Orleans, April 28.—After Montgomery had rallied and tied the score in the eighth inning today, the locals held the visitors until New Orleans scored in the tenth and won the third straight game of the series, which ends with tomorrow's contest. Black pitched sensational ball after the third inning until the tenth, when a single, two errors and a sacrifice fly ended the game. Montgomery knocked Bagby out of the box in the fifth inning. Knaupp's home run, with two on bases, in the first inning, was a feature.

WILLIE HOPPE BECOMES TRIPLE CUE CHAMPION

By Defeating Demarest, Hoppe Gets Title to Each Style of Play.

Chicago, April 28.—By defeating Calvin Demarest, of Chicago, 400 to 196, in the final game of the world's professional championship tournament at 14.1 balk-line billiards, Willie Hoppe became a triple champion, holding the titel to each of the three styles of balk line play. His victory gives him possession of the silver trophy for the 14.1 game and 40 per cent of the $3,000 cash prizes, entrance fees and gate receipts. Hoppe won all seven of his matches, and Demarest met with his only defeat tonight, winning six out of seven games. Scores:

Hoppe 2, 9, 28, 145, 56, 2, 24, 24, 61, 0, 0, 35, 0, 11, 3—Total 400; average 26 10-15. High runs 145, 61, 56.

STEEL DIVIDEND IS PAID, BUT DEFICIT IS LEFT

New York, April 28.—A deficit of $6,289,644 after payment of the regular dividends on the preferred and common shares of the United States Steel corporation, reported by the directors today, was accepted in financial and trade quarters as further proof of the adverse conditions now prevailing in the steel and iron industry.

Of the $12,658,700 required to meet these dividends, there remained a balance, after depreciation and interest charges, of only $6,369,056, so that virtually all the money for the common dividend had to be provided from the undivided surplus of the previous quarter, which amounted to $15,539,215.

The statement as a whole was in keeping with popular estimates. Earnings for the quarter $20,450,988, compared with $25,508,568 in the preceding quarter; total earnings of $17,994,381 were $5,041,968 under that period; net income of $12,196,358, was less by $5,077,267.

In its main features the exhibit is not unlike that of the corresponding period of 1912, when a deficit of $6,299,134 was shown as a result of earnings slightly under those of this last quarter.

All the retiring officers of the corporation, including Chairman E. H. Gary and President James A. Farrell, were re-elected at today's meeting. Chairman Gary declined to express an opinion regarding trade prospects, but from unofficial sources it was learned that the question of a reduction of the wage schedule was inconclusively discussed.

Steamer Is Ashore.

Norfolk, Va., April 28.—A freight steamship, reported as the British vessel Argo, went ashore off Oregon inlet, on the North Carolina coast, tonight during a heavy fog. Lifesavers boarded the ship shortly before midnight, but the crew is said to have refused to leave the vessel. A choppy sea is running. The ship was not believed to be in immediate danger. One message here identified the ship as the British steamer Arrow, but no such vessel is known, and it is believed to be the Argo.

If You Are Between 18 and 45 Uncle Samuel May Draft You

If you're between 18 and 45 years old, you are a soldier of the United States.

You can be picked up at a moment's notice and sent to foreign soil to fight.

Did you know that the United States had a conscription law?

In case of war with Mexico every able-bodied male between the above ages is liable to be called into service.

An act of congress approved January 21, 1903, and amended in 1908, commonly known as the "Dick militia law," makes it possible for the president of the United States to call into service of the United States not only the regularly organized militia of the various stated, but also the so-called "reserve militia," which constitutes all citizens between the ages of 18 and 45 years.

Section 4, of this law provides that "whenever the United States is invaded or in danger of invasion from any foreign nation" or in other contingencies named, "it shall be lawful for the president to call forth such number of militia of the state, or the District of Columbia, as he may deem necessary."

Furthermore, it is provided that when the president calls out the militia for such purposes, "he may specify the period for which such service is required," and the militia so-called shall continue to serve during the term specified, either within or without the territory of the United States, unless sooner relieved by order of the president of the United States.

The use of language "either within or without the United States" shows that it is only necessary for the president to decide that there is a possibility of danger from invasion by Mexico, federals or constitutionalists, in order to have authority to ship to Mexican soil as many state militiamen and of reserve militiamen as he may deem necessary.

It will be surprising to the ordinary man on the street to know, therefore, that he may be summoned at a moment's notice to join the militia; that he is, in fact, already a reserve militiaman and as such subject to immediate call by the president for service either within or without the territory of the United States.

Drastic Penalties.

Not only that, but section 7 provides drastic measures and penalties for failure to obey such summons. After providing that members of the militia, when called out by the president, shall be mustered into the service of the United States without further enlistment and without further medical examination previous to such muster this sections says "that any officer or enlisted man of the militia who shall fail to offer himself for such muster, upon being called forthwith as herein prescribed, shall be subject to trial by courtmartial and shall be punished as such courtmartial may direct."

Section 9, in effect, makes regular soldiers of the militiamen when thus called into the service of the United States. It says "that the militia, when called into actual service of the United States shall be subject to the same rules and articles of war as the regular troops of the United States."

Violation Serious.

Violation of articles of war is about the most serious thing that could happen to anybody. Many of the penalties prescribed call for death in war time and the other penalties are severe.

There is another act of congress entitled "An act to provide for temporarily increasing the military establishment of the United States in time of war," the act by which a volunteer army could be mustered. But the failure of men to volunteer might be very readily followed by the enforced enlistment of citizens under the Dick militia law without the necessity of congress passing a special act authorizing conscriptions.

The Dick law for all practical purposes is itself a conscription act.

AFTER HOLDING REVIVAL HE WAS DONE TO DEATH

Cleveland, April 28.—A body exhumed from the Rockport cemetery here, today, was identified as that of Rev. Lewis Patmont, who disappeared from Danville, Ill., April 1. The body of Patmont was found along the Big Four railway tracks April 6. The coroner decided that murder had been committed, proably on a freight train, and that the body was then thrown overboard.

Prior to his disappearance, Mr. Patmont had held a revival meeting in Danville. An option campaign was then being waged, and it is said that he was driven from town by partisans.

RAGSDALE RESIGNS AS PASTOR OF CHURCH

Full Report on Conley Affidavit to Be Made to the Church Tonight.

An investigating committee of six leading members of the Plum Street Baptist church, of which Rev. C. B. Ragsdale is pastor, called on him at his home Monday night in an effort to bring to light the true facts relating to the report that he had been instrumental in a "frame-up" in which Jim Conley was accused of having confessed to Mary Phagan's murder.

The committee was composed of Frank A. Smith, chairman; W. R. Beattie, church treasurer; Charles G. Wheeler, deacon; J. E. Dobbs, T. B. Dobbs and Rev. J. W. Cartin.

The committee would not disclose any information regarding the outcome of their visit except to say that Mr. Ragsdale had tendered his resignation, and that they, the committee, would make their full and final report to the church tomorrow night in conference. The church will then take action in the matter.

"The public," said Mr. Wheeler, "will be thoroughly satisfied with our investigation and report. We have the situation entirely in hand, and the church will act on our report as it thinks advisable.

"However, we would like to say that R. L. Barber is not, and never was, a member of the Plum Street Baptist church. The tone and texture of our flock is not low by any means."

Rev. Ragsdale has been with this church little more than a year. He was formerly pastor of Capitol View Baptist church. The Plum Street church was founded in October, 1912, with twelve charter members, and now has 120. The building was formerly used as a kindergarten, and at one time was an Episcopal church.

BRITISH MARINES GO TO RESCUE AMERICANS

Washington, April 28.—Rear Admiral Mayo reported that Admiral Cradock, of the British cruiser Hermione, had dispatched Major Clark and a detachment of British marines 40 miles inland from Tampico to rescue eight Americans at Orange Hill. The Hermione sent thirteen refugees aboard the Des Moines today. Admiral Badger reported that it would be inadvisable to send an American ship to the Yucatan district, "as it might start anti-American demonstrations."

In regard to the reports from Tampico that American citizens there were indignant because of the departure of the American battleships from the river, Secretary of the Navy Daniels said today that this action had been taken after Admiral Cradock had informed Admiral Mayo that he would undertake to receive Americans from Tampico aboard the Hermione and transfer them to the Des Moines upon the American vessels taking a position at sea. This arrangement, it was thought, Mr. Daniels said, would make anti-American demonstration in Tampico less likely.

"I will go in and bring the refugees to you," the British admiral was reported to have said to Admiral Mayo.

HEAD OF TEXAS RANGER WANTED BY MEXICANS

An investigation will be made, according to the governor.

To Hold Meeting at Grady Monument to Boom William S. Wier

At a meeting of the labor legislative committee, at Labor Temple, 112 Trinity avenue, last night, it was decided to hold a mammoth open-air mass meeting in the interest of William S. Wier, labor candidate from the county-at-large for county commissioner, at Grady monument, Marietta and Forsyth streets, Monday night at 8 o'clock.

William Strauss, chairman of the labor legislative committee, was appointed as a committee of one to confer with Mayor Woodward in regard to permission to hold the street meeting.

Mr. Wier himself will speak, and it is anticipated that the meeting will be a large and enthusiastic one. A committee has been appointed to look into the matter of music for the occasion.

Last night's meeting, in the interest of Mr. Wier, was an enthusiastic and encouraging one. A number of details of his campaign were outlined. Among these was the appointment of committees to forward Mr. Wier's cause in each of the precincts of the county. These are to report to a meeting of the committee to be held Saturday night at 8 o'clock at Labor Temple. Between now and election day the committees will work hard for their candidate, and will be on hand at the polls on election day.

Mr. Wier has an executive committee of about 200 members who are also working hard for his nomination in the primary.

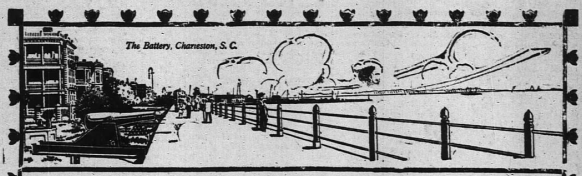

LOUDERBACK MILLIONS DWINDLED TO $10,000

Chicago, April 28.—The value of the estate of Delancy Louderback, former associate of Charles T. Yerkes, traction magnate, and believed until his recent death to have been a millionaire, was placed at $10,000 in a petition for the issuance of letters testamentary filed today in the probate court.

Atlanta Gives Gracious Welcome To City's Grand Opera Visitors

NOTES ON TUESDAY'S SOCIAL EVENTS

By Isma Dooly.

Atlanta is giving gracious welcome to the stranger within the gate, and to her Metropolitan stars—for are they not Atlanta's at this season of the year? The glory of yesterday's sunshine put everybody in a good humor, and from the breakfast hour on through the day the clubs of the city and the hotels, where the visitors are, presented a continued scene of gaiety.

Madame Gadski, Madame Ober, Caruso, Scotti, Gilly, Madame Amato, Miss Case and Segurola were among the first to greet before noon, and appearing on the porch of the Georgian Terrace they were the center of admiring friends.

Thomas Dixcey, Jr., age 4 years, son of Mr. and Mrs. Thomas Dixcey, of New York, was among the first to greet the stars, whom he had been told about. He was introduced to them, accepted the honor with mature courtesy, and made no comment till he met Segurola, who adjusted his monocle, and received the younger gentleman with much dignity. Thomas looked up into the face of the great singer inquiringly, and then said, sympathetically:

"Too bad—you have lost one of your glasses."

A group of little boys appeared at the side entrance shortly after the breakfast hour, and being asked by the porter who they were looking for, replied: "We just want to see 'him.'"

"Caruso has not come downstairs yet," explained the porter.

"Who's Caruso?" they asked. "We want to see William J. Burns."

POPULAR VISITORS.

Among the most popular of visiting ladies is Mrs. Richard Bissell, of Hartford, Conn., who, with Mr. Bissell, is visiting Mr. Thomas Egleston.

She was the guest of honor in Mrs. H. M. Atkinson's box Monday night, and wore a becoming toilet in coral-colored chiffon over white satin. After the opera Mr. and Mrs. Bissell were entertained at the Capital City club by Colonel and Mrs. Lowry, who had invited twelve guests to meet them, among them Mrs. Lawrence D. Tyson, of Knoxville, and Miss Isabel Tyson, who is one of the most beautiful young women in the south.

Mr. and Mrs. Bissell were the guests of honor in the dinner party given last night by Mr. Egleston.

They will be among the guests at Mrs. Little's luncheon today, and will be entertained at the Druid Hills Golf club this afternoon.

They will be among the visiting guests at the breakfast Colonel and Mrs. Robert J. Lowry give at the Driving Club Friday at 12 o'clock to the Knoxville party, and they will be with Governor and Mrs. Slaton in their box tonight.

Mr. and Mrs. Walter Lamar and Mr. and Mrs. Emory Winship and Miss Casey are being beautifully entertained. Mrs. Lamar was the recipient of many attentions at the Driving club last evening, her toilet of white satin with overdraperies of green embroidered in silver. Mr. and Mrs. Winship were the dinner party entertained at the Driving club by Mr. Brooks Morgan, his guests including Mrs. Florence Wadley Coleman, Mr. and Mrs. Page of New York; Miss Casey, Mr. and Mrs. John E. Murphy, Mr. and Mrs. Carrol Payne, Mr. and Mrs. James L. Dickey, Mrs. Richard Johnston, Mr. S. S. Dunlap, of Macon; Mr. John Temple Graves, Mr. E. T. Lamb.

In Mr. Egleston's party were Mr. and Mrs. Bissell, Mr. and Mrs. Walter Lamar of Macon, Colonel and Mrs. Lowry, Captain and Mrs. McKinley, Mrs. L. D. Tyson, Mr. and Mrs. Clark Howell, Miss Dooly and Mr. Tupper.

AT DRIVING CLUB.

The Piedmont Driving club proved its elastic qualities last night as well as its continuous hospitality in the beautiful dinner and ball marking the first large social event of opera week. Six hundred guests were entertained. The ballroom was converted into a banqueting hall, the main dining room was used, and there were tables in every available place in the clubhouse. The tables were bright in decorations of spring flowers, pink roses, snap dragons and the wonderful purple iris combined in the decorations. The menu served was delicious, and service was ready and adequate. In the center of the ballroom was a long table, at which Mr. Nunnally and other members of the club management were hosts. Colonel and Mrs. Peel were there, and a group of the opera stars. After dinner the ballroom and main dining room were soon cleared, and the ball began. There was an orchestra in each room, and the flowers and lights and the glittering toilets of the beautiful women combined to make the scene one of great brilliancy.

Colonel Ragan's party of twenty-four, whom he had entertained at dinner, joined the party at the club, this party including Mrs. Kenneth Murchison, Mrs. Hurcamp, Mrs. DeLos Blodgett, Miss Blodgett, Mrs. Edward Inman, Mrs. John Little and Mrs. Frank Ellis.

Dr. and Mrs. Barker, the guests of Mr. and Mrs. Hugh Richardson, were with Dr. and Mrs. Charles Remsen, entertaining for Dr. and Mrs. Ira Remsen.

MISS TYSON'S BEAUTY.

Miss Isabel Tyson was one of the honor guests in the dinner party given at the club last night with Miss Esther Smith. Mrs. Lawrence Tyson was with Mr. Egleston's party.

Mr. and Mrs. Kelly Evans were the guests of honor in a congenial party, Mrs. Evans wearing a mustard-colored satin gown brocaded in silver.

Mrs. Francis Carter Devine was in the party given by Judge and Mrs. Atkinson, her gown of pink satin embroidered in silver and crystals.

Mrs. John Patterson, of North Carolina, was the center of admiration in another party, her gown of rose-colored satin embroidered in silver.

HOSTS AND HOSTESSES.

The hosts and hostesses at the club last evening were Dr. Willis Ragan, Mr. and Mrs. Henry R. Scott, Mr. and Mrs. Andrew Calhoun, Mr. and Mrs. Thornton Marye, Mr. and Mrs. Frank Inman, Mr. E. V. Haynes, Mr. and Mrs. E. P. Ansley, Lieutenant Castleman and Mrs. Castleman, Mr. and Mrs. W. Chipley, Mr. and Mrs. Hugh Richardson, Mr. and Mrs. W. A. Speer, Mr. Royston Cabaniss, Mr. and Mrs. J. C. By Isma Dooly.

As a whole, the performance of "Il Trovatore" at the matinee yesterday afternoon may be truly said to have overshadowed in brilliancy even those presented by the Metropolitan Opera company on previous occasions here, and stand out gemlike even in the Metropolitan collection.

The audience went to feast; many had attended this opera as the only one they could see, and their response to the performance was one of joy, thrilling to behold.

It was proved again that among the Metropolitan stars there is no greater favorite with Atlanta audiences than the temperamental baritone, Pasquale Amato. While he was, as he always is, the artist of rare temperament, yet the keynote in the feature of the Count deLuna's role, "Tempest of the Heart," was sung with a reserve, which is of as much value to the artist as his temperament.

There was an affectionate ring in the nature of the applause which followed his every appearance, whether or not his glorious voice was heard.

Triumph of Gadski.

As great in the coloratura role as she is in the dramatic Wagnerian parts which are her forte, Madame Gadski proved herself to be as Leonora in Verdi's world-beloved opera. Exquisite delicacy marked her interpretation of Leonora, and the audience responded to her artistic achievement with bravos again and again.

It was Madame Ober's first appearance in Atlanta, this her first year in Metropolitan opera, and she continued here the ovation which has been accorded her in New York. The precedent set by other famous Azucenas she lived up to, holding high the standard, both vocally and dramatically. Her voice, one of marvelous range, is equally beautiful in every register. It is powerful, and possesses the vocal quality and magnetism to rank her among the great singers.

Martin Scores a Hit.

Riccardo Martin's velvety tenor might have been in the mind of Verdi when he wrote the part of "Il Trovatore," and to its romantic beauty Martin gave true and exquisite expression. His rendition was the height of lyric charm, and he carried with him the enthusiastic appreciation of one of the most representative audiences yet assembled during Atlanta's opera fetes.

Marie Matfield presented an excellent Inez. Giulio Rossi sustained with the grace of the artist the role of Ferrando, and Bada and Reschiglian completed the harmony of a performance of all stars.

Richard Hageman ably conducted the orchestra, as it accompanied with wonderful beauty the score of an opera which meets the universal appeal.

WOUNDED FLOYD DEPUTY HAS A CHANCE FOR LIFE

Sheriff Dunehoo Retires From Race—Is Still Held in Jail.

Rome, Ga., April 28.—(Special.)—Deputy Sheriff G. W. Smith, who was shot last night by Sheriff W. G. Dunehoo in a personal encounter over political matters, is still alive and his physicians state that his chances for recovery are improving. He is not yet out of danger, and will not be for the next forty-eight hours. However, he has a good chance for life, provided peritonitis does not set in from the wounds in his abdomen. Sheriff Dunehoo is still confined in Floyd county jail, his bond not having been fixed. Henry Dunehoo, a son of the sheriff, who was arrested under a warrant charging assault with intent to murder, it being alleged that he took part in the affray between his father and Smith, was released this morning under a $5,000 bond.

The anticipated trouble and clash between partisans of the two men, who were on opposing tickets for sheriff, did not materialize at the polls today, owing to the fact that Dunehoo this morning announced his retirement from the sheriff's race. In a card to the voters he states that he considered himself fully justified in everything that he did and would make a showing to this effect at the proper time, but that it desired to avoid discussion and discord at the polls he withdrew.

Coroner John Miller is in temporary charge of the sheriff's office. In case Smith recovers, the sheriff will be released on bond and will continue the duties of his office until his term expires on January 1, 1915. Should Smith die, and the sheriff be charged with murder, he will probably resign the office, or proceedings might be taken against him for a trial by a special jury of impeachment. In case a vacancy arises in the office, the ordinary of the county will appoint a special officer to have charge of the sheriff's office for a month, and a special election will be called for the unexpired term.

NEW TRIBE OF SAVAGES FOUND BY ROOSEVELT

The Savages Wear No Clothes. Stirring Adventures for the Colonel.

Rio de Janeiro, Brazil, April 28.—Colonel Theodore Roosevelt, on his journey through unexplored regions of Brazil, discovered a tribe of savages hitherto unknown. The tribesmen, who were named Kahuates, were naked.

Captain Amilcar Magalhaes, chief of the Brazilian mission accompanying Colonel Roosevelt, who relates this discovery to The Gazeta de Noticias today, says the party met stirring adventures. Colonel Roosevelt himself killed two large tiger cats.

The expedition traced the course of the river Gypirana, a tributary of the Madeira.

The captain declares that in the accident on the Gypirana March 13, when one of the boats capsized, only the baggage was lost. The total bag collected amounts to about 2,000 specimens.

RAILWAYS TO CHARGE FOR "SPOTTING" CARS

Washington, April 28.—Railways operating in eastern classification territory have adopted the event suggestion given them by the interstate commerce commission and have begun to file tariffs providing for a charge for "spotting" cars. The provisions and charges contained in the tariffs are identical in all instances, indicating concerted action on the part of the roads. The charges are 5½ cents a ton with a minimum charge of $2 a car. The exaction of $2 a car, it is believed, would increase the revenues of the roads at least $10,000,000 a year.

A charge for car "spotting" is one of the ways proposed to increase the returns to the railroads without making a straight advance in rates.

The suggestion, however, has raised a storm of protest from shippers.

The tariffs filed with the commission contain these descriptive statements:

"Spotting service is the service beyond a reasonably convenient point of interchange between road haul or connecting carrier and industrial plant tracks and includes:

"One placement of a loaded car which the road haul or connecting carrier has transported.

"The taking out of a loaded car from a particular location in the plant for transportation by the road haul or connecting carrier.

"The handling of empty cars in the reverse direction."

An effort will be made by shippers to have the tariffs, which are filed to be effective on thirty days' notice, suspended. If they should be suspended, that action would serve to bring the reasonableness of a charge for car spotting directly to an issue.

MEASURE TO REINSTATE COLONEL C. M. PERKINS

Washington, April 28.—Senator Tillman, chairman of the senate naval affairs committee, will report to the senate tomorrow the favorable action of the committee on the bill for the reinstatement to the United States marine corps of Lieutenant Colonel Constantine M. Perkins.

Following the letter of Josephus Daniels, secretary of the navy, recommending reinstatement for the marine officer, the senate comittee was polled. Only one vote was recorded against reinstatement—that of Senator Bryan, of Florida. Senators Swanson, of Virginia, and Perkins, of California, declined to vote.

Lieutenant Colonel Perkins voluntarily retired from the marine corps six years ago, under pressure, as he later explained. He has seen service in many parts of the world and is eager for reinstatement during the present Mexican crisis.

NEW YORKERS ON WAY TO ANDERSONVILLE

Charlotte, N. C., April 28.—Visiting Salisbury this afternoon, 258 members of the New York monument dedication commission erected a monument in the cemetery there to the memory of 12,148 union soldiers who died in the old Salisbury prison during the war between the states.

In the party today were sixty-four survivors of the North Carolina prison, which ranked second only to Libby in the hardships experienced by those confined there. Two of these, Colonel Sam Pierce, of New York, and Robert Drummond, of Auburn, gave graphic accounts of their former visit and stay in Salisbury.

The New Yorkers left tonight for Andersonville, Ga., where a monument is to be unveiled in honor of 13,722 federal dead.

HE CONFESSES PERJURY IN BEHALF OF GUNMEN

New York, April 28.—William E. Burwell, one of the witnesses who testified for the gunmen slayers of Herman Rosenthal in their eleventh hour plea for a new trial, was brought here last night from Derby, Conn. One of the witnesses at the hearing has confessed that his testimony was perjured and is in the Tombs awaiting a hearing before the grand jury. He is said to have told who outlined the testimony given on behalf of the gunmen, and it is District Attorney Whitman's purpose to corroborate the statement, if possible, through questioning Burwell. The prosecutor has reason to believe, it is said, that there was a plot to aid, besides the gunmen, Charles Becker, former police lieutenant who is to be tried again next month as the instigator of Rosenthal's murder.

ATLANTA MAN WINS CONTRACT FOR $150,000

Columbia, S. C., April 28.—(Special.) R. M. Hudson, a contractor of Atlanta, was awarded the contract today to pave the streets of Columbia with asphalt. The cost will approximate $150,000.

Miss Margaret Hood Better.

Miss Margaret Hood, of 38 Culberson street, daughter of George R. Hood, deputy clerk of the federal court, is convalescing nicely from a surgical operation to which she was subjected at the Tabernacle infirmary a week ago. Miss Hood is now able to receive a few of her closer friends every day. Her daily improvement is thoroughly satisfactory to her attending physician, Dr. R. B. Ridley, Jr.

Sock Social Held.

About 200 members of the Plum Street Baptist church and Sunday school held a "sock social" last night at the home of Mr. and Mrs. Frank A. Smith, 15 Corput street. The entertainment was given by the Ladies' Aid society of the church, and the money donated by the guests goes to charity.

COTTON MARKET CLOSES STEADY

April Advances 11 Points and May 2; July 13 Points Lower, and New Crop Positions Show Losses.

New York, April 28.—The interest of the local cotton trade today centered on the circulation and reception of the first May notices which were estimated at 60,000 to 70,000 bales. Old crop prices eased off under liquidation as these notices passed through the street, but May increased its premium from about 2 points over July to 17 points during the late trading, and it was rumored that part of the notices had been stopped for the account of southern spinners and that houses with Liverpool connections had also prepared to take up some cotton. Some of the May buyers were sellers of July, while there was also selling of the latter position against purchases of new crop months, and the active summer delivery led the decline with the price at one time showing a net loss of 16 points. The close was steady at an advance of 11 points on April and 2 points on May, while July was 13 points net lower and new crop positions showed net losses of from 2 to 3 points.

The market opened steady at unchanged prices to an advance of 3 points and sold about 3 to 5 points net higher during the early trading, in sympathy with steady cables and on the appearance of May buying orders in the hands of leading spot house brokers. The market soon eased off, however, under realizing or liquidation by scattered longs and fluctuations were more or less irregular during the balance of the day. New crop positions were relatively quiet and steady on reports of continued rain in the southwest and predictions of lower temperatures. The rumors circulating during the day included estimates that southern spinners had taken up through local spot houses notices for about 35,000 bales, comparing with the total certificated stock here of a little over 85,000 bales.

New Orleans Cotton.

New Orleans, April 28.—Prices were well maintained at the opening of the cotton market here today, but adverse reports later brought a decline and the close was at a loss of 7 to 9 points on the near months, and 2 to 3 points on the new crop contracts.

Weather conditions in the western part of the belt and the anticipated stoppage of May notices in New York by exporters were elements of early strength that influenced a slight initial advance of prices for the active months. But with the quick change in the attitude of New York firms, indicated by the stoppage of their own notices, at a moderately lower level, an early weakness developed and free liquidation by the long interests sent prices off sharply to a loss of 6 to 12 points during the forenoon. In the afternoon the market was quiet, with prices fluctuating over a narrow range and no decided tendency in either direction in evidence.

John F. Black & Co.

New York, April 28.—(Special.)—There were heavy tenders of May today, but the people who tendered cotton also bought May. It is reported that there will be large shipments of the cotton taken up to southern mills, but in spite of this July was the weak month. May closed 13 down and August 11 down, while May was up 2 points. The weather in the west continues bad and new crops were steady, closing 2 down. It is not safe to be short any month on the list just now. A little more backward weather would start a sharp advance. Liverpool is due to come 3 up on May-June and 17 down on other positions.

Coffee rallied about 10 points on bull support, but is a sale at this level. New crop prospects in Brazil are splendid.

Hubbard Bros. & Co.

New York, April 28.—A large portion of the stock of cotton was tendered today for delivery on May 1. Part of these tenders were taken by the spinners, while the balance was taken back by purchases made in the market during the day. Sales of July were apparently made against these purchases. Many owners of May sold out and did not repurchase, as they were impressed by the depression in trade. This caused the decline of the day. At the close several foreign houses had buying orders on May which brought about a quick rally on that position. The remainder of the market has been heavy all day.

Jay, Bond & Co.

New York, April 28.—(Special.)—The feature of the market today has been the liquidation of May on the part of miscellaneous holders which was occasioned by the issuance of notices of tender for about 50,000 bales of the local stock. While spot houses eventually accepted the cotton, the continuous selling of May was a weight on prices and finally brought about liquidation in July, which made that position relatively easier. At this time it is impossible to say just what will be the disposition of the local stock in the near future, and consequently the course of the summer positions is very uncertain. If the cotton moves away from New York it will strengthen them, but if it remains here the new crop positions should be in greater demand. Continued wet weather in the western part of the belt is adding to the already late start of the crop in that section.

Weather Bulletin.

Washington, April 28.—Weather in the cotton belt during the week ending yesterday was summarized by the weather bureau today in its weekly bulletin as follows:

"Over the eastern portions of the cotton belt sunshine and warmth prevailed except for the first day or two. Much outdoor work was possible and vegetation of all kinds made favorable progress. Over the western portion of the cotton belt heavy rains occurred over much of Texas and Oklahoma, thoroughly saturating the soil, and sufficient rain occurred in the remaining portions. Temperatures were moderate, but heavy rains and cloudy weather have interfered with farming operations and the season is generally regarded as late."

PRICES DECLINE IN GRAIN MARKET

Field Conditions, Due to Rains, Reported So Favorable That Little Attention Is Given to Bullish News.

Chicago, April 28.—Abundant moisture in all quarters gave the wheat market today a bearish turn. Closing prices, although steady, were 1-2 to 1-2@5-8c under last night. Corn suffered a net decline of 5-8@3-4 to 1@1 1-8c, and oats a setback of 1-8@1-4 to 1-4c. In porvisions the outcome varied from 5c loss to a rise of 2 1-2@5c.

Rains that fell over the entire winter and spring wheat belts were regarded as a great boon to crops, notwithstanding that seeding in some parts of the northwest was delayed by the storm, the good done even in such sections more than counterbalanced the harm. In fact, the field conditions in every direction were reported so favorable that bullish news attracted little attention. For example, a big decrease in the world's available supply passed almost unnoticed.

Many big houses were active in selling wheat on the decline today, and in preventing any important rally. One of the reasons for this course was the absence of hope for material improvement in European demand during the next two months. It was a current opinion that an immense surplus in Russia was just beginning to press on the transatlantic market, and probably would fill all requirements until the arrival of the new crop in the United States.

Desire to avoid taking deliveries on May contracts had much to do with weakening the corn market as a whole. Fine weather in Argentina added to the burden of prices. Moreover, country offerings were somewhat enlarged, and cash sales only moderate.

In the oats crowd, sympathy with the depression in other grain was manifest, but overgenerous selling was quickly checked by elevator concerns.

Liquidating sales of miscellaneous holders carried down provisions. Packers, howeve,r were alert buyers on the break, and succeeded in causing a nearly complete rally.

FIDELITY FRUIT AND PRODUCE COMPANY'S LETTER.

The movement in all kinds of vegetables has been good this week. Receipts have been heavy, and market lower, which created an increased demand.

Strawberry receipts have been heavy and market quite a lot lower than last week.

Receipts have been very heavy this week in beans, new potatoes, English peas, squash, lettuce and cucumbers, and the market showed a decided decline. But the demand has naturally increased, and all stock sold as fast as it came, leaving the market in fine shape.

Celery receipts rather light, market advancing.

Tomatoes, the market is clearing up and prices advancing fast, especially on fancy stock.

Asparagus receipts heavy the past two days, forcing the market lower.

Cabbage, market is over-stocked, and selling cheap. Dealers who are connected all over the country say there never was such a crop before.

Apples are moving fairly well at the advance price.

Oranges are selling well this week, although the price is high and market firm.

Grapefruit receipts are liberal and movement good at very satisfactory prices.

Egg receipts light, market firm at quotation. The same is especially true of poultry.

STRENGTH SHOWN IN STOCK MARKET

From Opening to Close the Prices Moved Slowly But Steadily Upward—All Classes in Rise.

New York, April 28.—From opening to close today the stock market moved upward. Trading was quiet and the advance was slow, but the showing of strength was none the less pronounced, and by the end of the day the upturn ran from 1 to 4 points. All classes of stocks joined in the rise.

Uncertainty regarding the Mexican situation was too great for operations on a large scale on either side of the market. Not knowing at what time the outlook might be completely changed, speculators proceeded cautiously and held down their commitments. Nevertheless, increasing hope that war might be averted, caused a distinctly better feeling, and was probably the chief cause of the rise in stocks today. There were other favorable influences of lesser importance. Good conditions for the metal shares were benefited by revival of demand for copper, the price of which was raised. Progress on the freight rates case indicated a speedy decision. London assisted the upturn by buying stocks here.

Short covering was the main spring of the movement. The market was so thoroughly sold out on the recent decline that shorts found it difficult to obtain stocks for covering. There was also an increase in outside buying. It was reported that several large traders who had been persistently bearish had covered and taken a position on the long side.

Missouri Pacific was under heavy pressure for a time and fell off 3 points to 16½, the lowest figure in many years. Its weakness, for which no specific reason was advanced, was without influence elsewhere. A rise to new high levels for the year in foreign exchange was coincident with firmer private discounts abroad. The impression prevailed that, owing to the unsatisfactory financial and political conditions abroad, the first definite indications of peaceful settlement of the Mexican controversy would be followed by exportation of gold. Reports that a shipment of $2,000,000 to Paris had been arranged lacked verification.

Bonds were firm. Total sales, $1,630,000. United States 2s registered declined ½ on call.

Rice.

New York, April 28.—There is no stock in rough rice. Clean Honduras is quiet and steady and Japan is quiet and strong.

Rice, polish, per ton, $23.00@25.00; bran, per ton, $14.00@16.00.

Receipts, rough, 2,846; millers, 2,846; clean, 3,747.

Sales, 320 pockets clean Honduras at 2¼@3¼; 244 pockets Japan at 2 9-16.

MRS. IDA VON CLAUSSEN DECLARED NOT INSANE

White Plains, N. Y., April 28.—Supreme Court Justice Mills today handed down a decision declaring Mrs. Ida von Claussen not insane and directing that she be released from Matteawan asylum and sent back to the Tombs in New York to await trial on an indictment charging her with sending threatening letters to Charles S. Strauss, a lawyer.

Mrs. von Claussen first gained notoriety several years ago by threatening to sue Theodore Roosevelt, then president, for damages because, as she averred, he thwarted her plans to be presented to the king of Sweden.

JOHN M. KEITH DIES IN SAN FRANCISCO

The many friends of John M. Keith will be grieved to hear of his death which occurred on Monday morning in San Francisco. He was the brother-in-law of Mrs. Rachel P. Keith, and uncle of Mrs. Ira Fort and Charles Keith, of this city, whose friends are sympathizing with them in their loss.

Cost of Carrying Mails.

Washington, April 28.—With the approval of Postmaster General Burleson, Senator Smith, of Georgia, today introduced a resolution calling upon the joint postal commission for a report of the investigation of the cost of the transportation of mail. Senator Smith said this information might enable the government to reduce the parcel post rates.

Eastern Time Adopted.

Youngstown, Ohio, April 28.—The Youngstown council last night passed an ordinance adopting eastern time for the city on May 1, when Cleveland also will begin using eastern time.

REPEAL OF FREE TOLLS TO BE VOTED ON TODAY

Four Proposals Before Senate Committee—Some Sort of Report Expected.

Washington, April 28.—After a two-hour discussion today on the house bill to repeal the Panama free tolls provision, the senate canal committee prepared to vote tomorrow on these four proposals:

To report the bill without recommendation.

To report it with an amendment proposed by Senator Simmons, which would declare that by passing the repeal bill the United States would waive no rights possessed under the Hay-Pauncefote treaty or otherwise.

To report it with another amendment proposed by Senator Shields, declaring that the bill's passage should not be held to be a concession by the United States that it has not the right to exempt its coastwise shipping from toll payment.

To report a substitute proposed by Senator Walsh, which would afford any foreign nation an opportunity to try the matter before the United States supreme court.

Action along any of these lines will bring the bill before the senate.

At the conclusion of the session today it seemed virtually certain that some sort of a report would be ordered at tomorrow's session.

Both factions in the committee were surprised by the day's developments. The fact that Senator Simmons, who is credited with handling the fight for President Wilson, proposed an amendment, was taken by opposition senators to indicate that the president is not expected to insist on a report without modification.

Senators supporting the president, however, were surprised at the proposal of Senator Walsh. This was a solution suggested by former President Taft when he signed the Panama canal act. Some senators thought it was an indication that some sort of a report could not be avoided, and that the opposition to repeal may line up behind the Walsh substitute.

Although the committee was said to be quite evenly divided, predictions tonight favored a report on the Walsh measure.

Aviator Roystone Killed.

Los Angeles, April 28.—Charles C. Roystone, an aviator, fell 800 feet at Dominguez Junction, south of here, today, and was so badly injured that he died shortly afterward. Roystone, flying a monoplane, was on his way to San Diego to demonstrate an aerial bomb hurling device to the army officers at the government aviation camp.

ATLANTA'S STRIDES FROM DAY TO DAY

The most interesting feature of Tuesday's real estate announcements was the sale of Colonel John J. Woodside's country residence on Peachtree road, near Buckhead, to Dr. H. F. Scott, for a consideration in the neighborhood of $30,000. W. F. Turman, of the Turman, Black & Calhoun agency, negotiated the sale.

The property fronts 400 feet on Peachtree road and runs through a depth of 1,600 feet to Decatur road.

Dr. Baker will build on his purchase, and move from his present home at Peachtree and Baker streets.

Cash Sale.

John D. Babbage, Jr., has sold for Charles I. Rheberg to Mrs. Susan I. Jones No. 396 Spring street, for a consideration of $7,000 cash.

The poperty is located at the corner of Spring and Linden streets, and has a frontage of 31 feet with a depth of 78 feet to a 10-foot alley.

The sale was at the rate of $230 per front foot.

Georgia Avenue Sale.

E. L. Harling has sold for S. J. Sheffield to a client No. 216 East Georgia avenue, for a consideration of $3,500. This property consists of a seven-room cottage on a lot 55x175.

Virginia Avenue Sale.

C. W. Hunter, of the W. E. Worley agency, has sold for W. L. Merck to P. R. Byrd a vacant lot, 50x190, on Virginia avenue. The consideration is not named. The lot is located on the south side of the avenue, about a block off Highland avenue.

Regarding Listing Real Estate.

The Saturday Evening Post, current issue, carries the following interesting editorial on the subject of listing real estate:

"A committee of the New York Real Estate board has reported favorably on a proposal to list there securities based on real estate, substantially as stocks and bonds are listed on the stock exchange, and to make an open, official market for them comparable to the stock exchange market for other securities.

"Here would be a responsible and reputable body which would appoint a committee to examine securities that were offered for the list, to require exact statements concerning them, and to see that they had some substantial, bona-fide basis. The investor in such a security would know at least that he was not buying mere blue sky.

"Taking it by and large, there is as much sheer fake and fraud in the selling of real estate as in any other part of the investment field. This proposal looks only to the listing of securities based on real estate. In every large city we should like to see the real estate board offer to list all extensive real estate selling enterprises—all those that advertise, circularize or otherwise go out for a public hearing.

"Under proper regulations, any lot or acreage selling proposition that was not listed would be one for investors to let severely alone."

Friend of Lee and Grant Tells of Former Conquest Of Mexico by This Country

By James W. Mende.

"Yes, sir, I regard the situation in Mexico as extremely dangerous, sir. President Wilson has not declared war, and for that reason I anticipate that there is going to be complications of a serious nature unless the proclamation is made within the next seventy hours. No, sir, I don't think there will be any interference from other powers. What I want to make plain is that America should not have a war with the Mexican people. The matter is not so aggravated that it cannot be settled by diplomats."

It was Captain John Jacob Martin, gallant veteran of the Mexican war, and intimate friend of Generals Lee, Grant, Sherman and Meade, discussing the Mexican situation with a Constitution reporter at the Allen home, in East Point. Laying aside his judicial dignity, Captain Martin recalled the days of 1845 and 1846, when he served under General Scott at Vera Cruz and Mexico City, and explained the perils the Americans will encounter. Captain Martin does not believe the trouble will be ended in two years. In fact, he is firmly convinced that Uncle Sam will experience more difficulty in subduing the artful Huerta than he had in convincing Santa Anna that surrender on his part was the better part of valor.

Not a Single Man Killed.

"General Scott did not find it necessary to kill a single man on entering Vera Cruz," remarked Captain Martin.

"Aside from the actual dangers to be encountered on the field of battle, what do you regard as the perilous difficulties the Americans will encounter?" he was asked.

"The climate," was the prompt reply. "The climate at Vera Cruz will cause much suffering, and if the Americans get to Mexico City the greatest danger to be encountered there will be the water supply.

"I recall well the days of 1845. The men suffered from each fruit. They were indiscreet. The first regulation the army will have to establish will be to safeguard health by proper sanitation. That is going to be war in itself, but I understand that the big cities of Mexico have been practically built modern, and if that is the case the work of the health corps will be in the province where the conditions are said not to be extremely dangerous."

"The danger lies in the internal politics of Mexico," he explained. "Just like in other countries, Mexico has its class conflicts, each class wanting power. The Mexican people, from my personal observation, are very proud, and they are not going to submit in a hurry."

Opinion of Huerta.

"What is your opinion of Huerta?" was asked.

"Huerta is an educated military man," was the quick response. "He has his power. I have never given considerable thought to the theory that it is Huerta's scheme to surrender to the United States to save himself from the rebels. I think he is more crafty. Villa and Carranza are also great leaders, according to reports of their operations, and if they combine the situation is going to become more complicated.

"Within forty-eight hours the situation might clarify. Then, and not until then, will one be able to prophesy what immediate developments will be.

"I am firmly of the opinion that America could have avoided this conflict. This government could have done the same for Mexico as was done for Japan—send men to the troubled country to assist in straightening out the tangle. President Wilson could have sent American representatives to Mexico and informed the warring factions that if they wanted their government affairs untangled the representatives of the United States would undertake the task. As it is, the United States stands in the attitude of giant over Mexico.

"After the Mexican war of 1845, America could have put the country on a stable basis, if it had so desired. Either Generals Scott or Quitman would have been welcomed by the people of Mexico as president. The country was at peace. The people were happy, and there were no assassinations except among a few clans. The people of Mexico loved Scott. Had he remained among the people as governor general, I firmly believe that the country would be at peace today."

For more than an hour, Captain Martin recounted his experiences and discussed various phases of the Mexican situation. Once or twice he broke the trend of the interview to speak of the cotton crop prospects or to remark that immediately after his return from the civil war he sold cotton for 60 cents a pound, and that his father received as high as $1 a pound.

"I love to grow cotton," he informed the reporter. "I have some mighty fine plants on my place now, but—

Fun in Mexico.

"I tell you there is going to be some fun for our American boys in Mexico. There is always trouble when political factions break out."

In every day life Captain Martin is known as "Judge Martin." He is deeply learned in the law. He was studying when the Mexican war broke out. He enlisted from South Carolina, his native state. There may be a few who know more about war than Captain Martin, but there can be none more intimate with Mexican affairs.

He is still a member of the Aztec club, composed of Mexican war heroes. He attends the annual meetings of the club in Washington, and during the administration of President Taft he discussed the Mexican situation with the president and members of his cabinet.

During the civil war, Captain Martin was conscripted, but never went to the front. He was assigned as quartermaster assistant. His father was a gallant soldier in the American revolution, and two uncles were at Yorktown.

And, in conclusion, it might be added that Captain Martin is distantly related to Hon. Champ Clark.

After a man is married, perhaps it is only right that he shouldn't have a single idea.

AT THE THEATERS

Keith Vaudeville.

(At the Forsyth.)

When all is said and done, and when all other acts have had the once over, you have got to give extra word to the number offered at the Forsyth this week by Conroy and his assistants. Assistants is hardly the right word, however, for there are a very number of people who find more pleasure in looking at the two pretty girls who are a part of the act than in watching Conroy dive. One of them, by the way, is his sister and the other is one of the cleverest dancers, swimmers and divers from Boston. As for the other acts, they are all of the first Keith vaudeville class. The Forsyth is featuring this week "Pop" Anson, the greatest of all baseball players, the man who in his day was greater than Ty Cobb is today.

"Ann Boyd."

(At the Lyric.)

"Ann Boyd," presented by the Lucille La-Verne company at the Lyric this week, is the only legitimate attraction in Atlanta, but if the other theaters were housing the best known successes direct from New York, "Ann Boyd" would still hold her own. She is an enchanting person as played by Miss LaVerne, and the story woven about her is dramatic in the extreme. Those who have read the novel by Will N. Harben, the Georgian author, from which the play was made, will recall the tense, stirring situations and climaxes with which the book is filled. In the play, depicted by eighteen people in four pretentious scenes, the very essence of "Ann Boyd" is vitalized, making it a delightful entertainment.

Keith Junior Vaudeville.

(At the Grand.)

The present bill of Junior Keith vaudeville at the Grand will be seen for the last time today at 2:30, 7:30 and 9 p. m. Video and Hughes, black face comedians, have made a big hit and the same may be said of the Cansinos in their art poses; Three Raines, novelty entertainers; Austin and Blake, clever girl dancers, and Herbert Hodge and Mildred Howell, in the laughing skit, "Cupid's Mistake." "The Dead Man Who Killed" is a splendid four-reel feature picture. A complete new program is announced for tomorrow.

Turman and Winn Reply to Tull C. Waters' Misstatements

TO THE CITIZENS OF FULTON COUNTY:

In Tuesday morning's paper Mr. Tull C. Waters makes an effort to involve the undersigned in a controversy with him with the view, in our opinion, to distract the attention of the public from his own record.

Mr. Waters is running for re-election, asking an indorsement, and it seems to us that **HE SHOULD RUN ON HIS OWN RECORD**, rather than that of other members of the Board.

Mr. Waters is peeved because some members of the Board have taken a progressive stand in matters vitally affecting the taxpayers, while he has opposed every change made in the interest of the public welfare.

The $2,800 he claims to have saved the County was on material purchased by his Committee in 1912, being Barber Asphalt, ordered, according to the records, November 4, 1912, and received by the County, billed as Trinidad Asphalt, December 1, 1912, and used on Marietta street.

This same committee, composed of T. C. Waters, Chairman, Clifford L. Anderson and Shelby Smith, gave an order on November 4, 1912, for 981 tons of Asphalt at a cost of $21,197, after the paving season was over, and when they knew that not a pound of it would be used, and the personnel of the Board would change in less than two months.

This material was the same as that laid by a contractor for the City on North Boulevard, and which was condemned by the CITY and torn out. It was purchased without specifications or analysis, to be used on Georgia avenue, but later, when found to be unfit for use as a mixed process, it became necessary for the County to buy other material in its stead. As a matter of fact, the County still has a large part of it on hand to this day, although Mr. Waters has paid for it since he has become chairman of the board.

The Committee of 1913, which Mr. Waters criticises, accomplished the largest year's work in the history of the County, including Georgia avenue, Jonesboro road, Marietta street, Peachtree road, Moreland avenue, Jefferson street, Chestnut street, Campbellton road, Butler and McDaniel street trunk sewers and a number of other jobs. A complete list of all the 1913 work was published in full in all the daily papers, and can be obtained now in pamphlet form by any citizen who desires same at the office of the Commissioners.

The statement by Mr. Waters that we have transacted the County business in private caucus is absolutely untrue.

Mr. Waters admitted in his speech at College Park that "He had been a failure." We do not believe the public will allow him to lay his failure at our door. Stand up to the rack, Mr. Waters, "fodder or no fodder." When the proper time comes we will give a proper account of our official acts.

In the meantime don't try to becloud the real issue. You ask for an indorsement. The public is familiar with your recent attitude. When the January Grand Jury, composed of 23 leading citizens, the State Prison Commission and a majority of our Board was trying to correct a rotten condition of affairs we were confronted by the strenuous opposition of Commissioner Anderson, and YOU supported him to the best of your ability, as you generally do. This is one instance of your efforts to "Block hurtful measures."

The people won, and we are more than willing for the people to say who has been looking after their interests.

Very respectfully,
S. B. TURMAN,
W. T. WINN.
